AE-58005

[Read More](#)

SKU:

Price: ₹22,500.00

Categories: [Brake / Clutch Lever](#)

Product Description

Aella Aluminum Billet Brake Lever
AE-58005

Presenting a rare and unique brake lever that is only seen on the WSBK and MotoGP bikes. This unique brake lever is hand built in Japan for race teams and is only available through Aella. Adopting aluminum contributes to weight reduction and improved looks, while the AELLA logo is engraved on the left side with a laser to casually appeal the brand. Fully adjustable lever allows more play for better braking control and the lever folds up in case of a fall or drop. This is a unique product that is being offered for the first time in India through Lanesplit, Aella's brand partner.

Aella Frame Slider BMW S 1000 RR (19-22 models)

AE-68129

[Read More](#)

SKU:

Price: ₹22,500.00

Categories: [Frame Slider](#)

Product Description

Aella Frame Slider AE-68129 Japan's most famous accessories and special parts company has teamed up with Lanesplit. Introducing Aella's frame sliders for the BMW S 1000 RR. These are hand crafted in Japan. In the case of a conventional slider due to the shape of the frame, the left and right mounting heights will differ, but the new design has been made so that they are almost the same height. AELLA's unique taper shape makes it less likely to stick out, and the slider functions well while maintaining a clean impression. The frame slider suppresses damage caused by unexpected falls. Since the frame of the new S1000RR is thin, if the force at the time of falling is transmitted directly to the frame, it may be damaged more than expected. Therefore, the right side adopts a new mechanism that releases the force applied during the fall. Furthermore, "heat-resistant bump rubber" is installed on both sides of the slider to avoid contact with the frame. Install the left side away from the mounting position and distribute the force at the time of the fall at the slider base. In addition, the "heat-resistant bush rubber" used in engine guards, etc., is installed so that this side does not come into direct contact with the frame.

Product Description

Aella Fuel Tank Cap

AE-70017 Color: Black Material: Aluminum This is a fuel tank cap (gasoline filler cap) made of machined aluminum. By replacing the standard tank cap, it can be easily opened and closed without using a key, allowing for quick refueling. It is very convenient for use on the circuit as well as on public roads. This tank cap has a beautiful machined aluminum finish, and once installed, you can fully enjoy the custom feeling. The cap is processed so that it is easy to grip with your fingers for easy removal, and the operating part is large enough to allow for smooth removal and installation. In addition, the structure has been improved to minimize gasoline spraying, which tends to occur when refueling, so you can use it with confidence.

By replacing the standard tank cap, it can be easily opened and closed without using a key, allowing for quick refueling. It is very convenient for use on the circuit as well as on public roads. This tank cap has a beautiful machined aluminum finish, and once installed, you can fully enjoy the custom feeling. The cap is processed so that it is easy to grip with your fingers for easy removal, and the operating part is large enough to allow for smooth removal and installation. In addition, the structure has been improved to minimize gasoline spraying, which tends to occur when refueling, so you can use it with confidence.

Aella Radiator Guard Kawasaki ZX-4R

AE-56042

[Read More](#)

SKU:

Price: ₹16,700.00

Categories: [Protectors](#)

Product Description

Aella Radiator Guard AE-56042 Japan's most famous accessories and special parts company has teamed up with Lanesplit. Introducing Aella's radiator guard for the Kawasaki ZX-4R. These are hand crafted in Japan. Aella's unique stepless wave pattern is a pattern that has both a cooling effect and a protection effect. Fine meshes with a high protective effect are placed in the central part where the front wheels are often wound up, and coarse meshes are placed in the part where the running wind on both sides hits well so as not to impair the cooling effect. Hairline treatment is applied to the surface so that fine scratches are not noticeable.

Aella Titanium Full System Exhaust Kawasaki Ninja 1000 SX

AE-42026SC

[Read More](#)

SKU:

Price: ₹200,000.00

Categories: [Exhausts](#)

Product Description

Aella Titanium Full System Exhaust AE-42026SC AELLA original muffler produced in collaboration with "Earl's Gear". A new design titanium variant silencer is adopted for the silencer, and it is a carbon end only for AELLA. Titanium alloy is used for the muffler material, achieving a weight reduction of 10 kg without a sub-silencer. A muffler that realizes "increased power and torque" in the entire area. * Note This product cannot be shared with the pannier case. (Pannier case usable model will be released soon)
