Product Description

Akrapovic Approved Titanium Slip On Exhaust 77117923808 The Akrapovic sports silencer allows you to customize your S1000R/S1000RR by giving it a sporty look and a more captivating sound. But that's not all: the Akrapovic silencer also offers you more power and torque while reducing the weight of your motorcycle. In collaboration with Akrapovic, long known for its sports silencers for motorcycles and cars, BMW Motorrad's HP cell has developed unique, high-end sports silencers with high-quality HP finish. These silencers not only give your motorcycle a new and more interesting look, but also the sound has been worked on to give the rider the best experience. The sound of your motorcycle is clearer, louder and more pleasant to your ears. The laser-etched Akrapovic BMW Motorrad logo on the silencer adds a touch of top-of-the-line identification to the exhaust system. Compared to the original silencer: - the Akrapovic BMW silencer is lighter, you gain in power - BMW Akrapovic silencer offers greater torque - the sound is much richer and more refined

Akrapovic Carbon Fiber Exhaust Full System Kawasaki ZX 10R

Product Description

Akrapovic Carbon Fiber Exhaust Full System S-K10E10-RC This is a complete system constructed from high-grade, race-proven lightweight titanium alloys. It provides an impressive increase in power across the entire rev range while also improving torque delivery. The weight is decreased by over 6 kg. The system is finished with a hand-crafted carbon-fiber hexagonal muffler – inspired by Jonathan Rea's (Kawasaki Racing Team) World Superbike–winning machine. The power level has been increased with an extra 8.2 kW (11 HP), recorded on Akrapovič's in-house dyno with back-to-back tests of the Kawasaki with an Evolution Line (Titanium) exhaust and a Ninja ZX-10RR with a standard stock exhaust system. The exhaust delivers a unique, deep, sporty sound that enhances the system's sporty heritage. An optional aluminum muffler bracket is available to further complement the entire system. The bike's ECU must be remapped when the Evolution Line system is installed.

Product Description

Akrapovic Carbon Fiber Exhaust Full System S-K10R10-RC This is a complete stainless-steel

exhaust system with a beautifully finished carbon-fibre muffler outer sleeve and high-grade titanium endcap. With the Racing Line, power and torque levels have been increased by an extra 8.2 Kw (11.1 HP) and 13.4 Nm, recorded on Akrapovič’s in-house dyno with back-to-back tests of the Kawasaki with a Racing Line (Titanium) exhaust and a Ninja ZX-10RR with a standard stock exhaust system. Coupled with linear delivery right across the entire rev range, it comes with a hexagonal muffler – including titanium inner parts to reduce weight – and a deep sporty sound. An option to add an aluminum muffler bracket is also available to complement the beautiful finish of this system. The bike’s ECU must be remapped when the Racing Line system is installed.

Product Description

Slip-On Line (Titanium)
S-S13SO4-HRAATBL

Two innovative and aero-efficient mufflers – with a catalytic converter in each to fully comply with BS6 type approval – perfectly match the design of the bike. Constructed from a black-coated lightweight titanium outer sleeve on the mufflers and high-grade stainless steel link pipes, along with carbon-fibre end caps and carbon-fibre heat shields, the exhaust weighs in at 31.6% lighter than stock. This system with a laser-engraved Akrapovič logo has great throttle response to give the rider the feel of the bike's engine and performance, while also adding 1.2 kW (1.6 hp) at 8,700 rpm and 1.9 Nm of torque at 8,400 rpm when tested on the Akrapovič dyno against a Hayabusa with a standard stock exhaust. A vivid, sporty, and deep soundtrack adds another dimension to the exhaust and further thrills the senses. It is a simple plug-and-play product with no need for remapping. Power +1.2 kWat 8700 rpm Torque +1.9 Nmat 8400 rpm Weight -3.9 kg

Akrapovic Racing Complete Exhaust
96481387C
Air filter included. Exclusively produced by Akrapovic.

Please note that this product is only available on special order. Please expect 6 - 8 weeks for delivery. Kindly provide your vehicle VIN number for purchase and mapping

The most advanced complete racing exhaust available on the market, developed by Ducati Corse technicians on the basis of the exhaust mounted on the Panigale V4 R used in the Superbike world championship by Bautista and Davies. Each component is made of a special titanium alloy which offers significant weight savings, as well as being particularly resistant to the high temperatures developed. The exhaust unit combined significantly the already high weight-power ratio of the Panigale V4. Equipped with a racing-derived polyester air filter, which, in addition to being more permeable, guarantees excellent filtering power and easy maintenance. Top performance not only thanks to the racing materials, but also to the mapping supplied, with which all the parameters of DTC - DWC - DPL and Slide on demand are provided to the new performance of the bike. The racing exhaust system enhances the unmistakable aesthetics of the Panigale V4 with a touch of aggression. A real race-replica even in the unmistakable sound. Weight: 6.0 Kg Max Power: +6% cv (V4/S) Power at mid-range: +6% cv Max Pair: +6% nm Mid-range torque: +6% nm **We remind you that buying this exhaust is possible to have the Ducati mapping specific for your motorcycle model. Contact us at the time of purchase for more information. NOTE:** To be mounted together with code 97180652AA (V4, V4S), 9N.B. The picture is only indicative FOR MORE INFORMATION PLEASE CONTACT US

96482001A
Air filter included. Exclusively produced by Akrapovic.
Please note that this product is only available on special order. Please expect 6 - 8 weeks for delivery. Kindly provide your vehicle VIN number for purchase and mapping
Exclusively produced by Akrapovic with the Ducati experience. The most advanced complete racing groupset available on the market is born from Akrapovič's manufacturing expertise, developed by Ducati Corse technicians and intended for use in races and circuits that require a sound level of less than 105db. However, compliance with the noise limit does not compromise performance, thanks to the careful work done on torque and power, which has made it possible to obtain improvements over the entire range of use and make the bike race ready. Each component of the implant is made of a special titanium alloy which allows a considerable weight saving, as well as being particularly resistant to the high temperatures developed. The exhaust unit significantly improves the Panigale V4's already high power-to-weight ratio. Equipped with a racing-derived polyester air filter, which, in addition to being more permeable, guarantees excellent filtering power and easy maintenance. Top performance, not only thanks to the racing materials, but also to the mapping supplied, with which all the parameters of DTC - DWC - DPL and Slide on demand are adjusted to the new performance of the bike. The double silencer under the saddle makes the design of the bike even more unique and enhances the unmistakable aesthetics of the Panigale V4 with a further touch of aggressiveness. A true race-replica also in the unmistakable sound. **We remind you that buying this exhaust is possible to have the Ducati mapping specific for your motorcycle model. Contact us at the time of purchase for more information.**

Product Description

The flagship of the Akrapovič exhaust system range, used and tested by top factory teams in motorsport racing. It is simply the finest performance exhaust system available. Each model is unique and dedicated to maximizing the performance of an engine, while reducing overall weight for optimized handling of the whole motorcycle. It is made entirely of titanium. The unique shape of the muffler, with its embossed imprint that run all the way along the exhaust and blend in seamlessly with the hand-crafted carbon fiber endcap, takes design to new levels. For perfect performance, throttle response and durability, ECU remapping is recommended. On the product image, the system is shown together with optional carbon heat shield P-HSB10E3. Carbon fibre muffler bracket (needed for mounting if passenger footrests are removed) is already included within the system. S-B10E10-APLT
