Product Description

Alpinestars SMX Air Jacket J.AL.SMX AIR NG/RJ-1303 Color: Black / Red With a main chassis constructed with 600D polyfabric and stretch softshell for the optimal blend of durability, light weight and comfort, this jacket features subtly incorporated class-leading Nucleon Flex Plus armor for proven impact protection. This jacket is equipped with a DWR (Durable Water Repellent) treatment on its fixed waterproof membrane for proven wet weather performance, and has a detachable thermal liner, allowing it to be adapted to the weather conditions for real world versatility. It is also fully optimized for use with or without Tech-Air® 5, Alpinestars world leading electronic airbag safety system. 1. Featuring an engineered fit designed to deliver the highest level of active upper body protection, this jacket is Tech-Air® ready and can accommodate the Tech-Air® 5 Airbag System. 2. Level 1 Nucleon Flex Plus armor on shoulders and elbows delivers optimal resistance against impacts and abrasion, while also being supremely flexible for optimum comfort. 3. Textile construction with extensive softshell panels for the optimum blend of fit, comfort, light weight and freedom of movement. Composition: - Chassis constructed from a blend of poly-fabric and stretch softshell for comfort, durability and light weight, with a 2L waterproof membrane for proven wet weather performance. - Low profile sports collar construction with soft lining for enhanced rider comfort. Protection: - According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: - Fully CE-certified riding garment to CE – Category II prEN17092 standards – A class - CE Level 1 EN1621-1:2012 Alpinestars Nucleon Flex Plus shoulder and elbow protectors. Technical features: - Tech-Air® 5 ready; Tech-Air® is

the world’s first completely electronic, self-contained, full independent upper body motorcycle airbag system with no bike-to-rider set-up configurations required. - Strategically positioned stretch panel inserts have been designed to accommodate Alpinestars Airbag System, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted. - An engineered sports body mapped fit and precurved sleeves for optimal riding performance. - DWR (Durable Water Repellent) treatment on the fixed waterproof membrane for additional wet weather performance - Detachable thermal liner (100g body, 80g sleeves) allow the jacket to be configured according to the climate. - Nucleon Flex Plus armor on shoulder and elbow (Nucleon chest Level 1 and Nucleon Level 1 and 2 back protectors available as an accessory upgrade). - DFS Lite shoulders with dynamic friction shield on the shoulder for enhanced abrasion resistance. - Rear of the jacket is elongated for enhanced coverage when riding. - Shock cord waist for a secure closure. - Two front zippered pockets, two chest pockets an inner waterproof document pocket and two inner pockets on the liner for safe and secure storage of valuables. - Zip front closure has been engineered to be durable and easy to use.

Price: ₹10,280.00

Categories: Riding Shoes

Product Description

Alpinestars Smx-1 R V2 Vented Boots ***Price reflects 50% deposit amount and not the full price. Includes shipping*** A class-leading, low-cut performance riding boot, the SM-1 R V2 Vented Riding Shoe incorporates a host of technical innovations for improved levels of comfort, fit and durability. Constructed from a lightweight and abrasion-resistant microfiber upper with extensive perforations for maximum airflow and breathability, the shoe is also equipped with strategically positioned TPU protectors for abrasion resistance in a key area. The SMX-1 R V2 Vented Riding Shoe also features a rubber compound sole with superior grip patterning for excellent grip both on and off the bike, while the accordion flex zones give support and control regardless of your riding position. Main upper constructed from an advanced microfiber for comfort, durability and excellent of abrasion resistance. Extensive perforations throughout for maximum airflow, with a front bellow constructed from textile material for enhanced breathability. Innovative heel counter support system, which works in conjunction with a strap closure to offer improved fit and support, as well as structural integrity. Rear of heel counter has been designed with soft TPR insert which works seamlessly with the rear flex zone to allow for improved freedom of ankle movement and comfort on the bike’s controls. Rear flex bellow is equipped with a flex window, which also acts as an air intake for effective ventilation and airflow. New ergonomic TPU shift pad for enhanced durability in a critical area. Alpinestars exclusive compound rubber sole with grip patterning to promote improved feel and grip, water dispersion and durability. Sole features integrated Alpinestars TPF (Transversal protection Frame) to protect against possible transversal loads. Instep and Achilles’ accordion flex zones are constructed from lightweight microfiber for optimized levels of durability, comfort and maneuverability on and off the bike. Thermowelded flex grooves to control the flexion and flexibility of the shoe; instep, medial and back. Reverse zip closure ensures convenient in and out. According to European statutory law the CE mark is a conformity requirement for the

marketing of this product. The following standards apply: CE EN13634:2017. External, high modulus TPU heel counter, lateral ankle and shift pad for improved shock protection and durability. Internal toe box protection is layered under the upper for durability, improved feel and performance. Double density ankle protector on both sides layered under the upper offers protective performance and abrasion resistance in key area. Integrated, replaceable bi-injected TPU forefoot slider features new easy-screw fixing concept for quicker and easier replacement. Removable anatomic foot-bed includes EVA foam and Lycra® for comfort and support. Internal mesh lining for cooling comfort and moisture-wicking. Ergonomic boot shaping for forefoot streamlining which offers wide-ranging foot profile fit and comfort. Evolved closure strap is anatomically angled to follow natural shape of rider’s instep. Front Velcro® closure system offers a quick and secure fit over the instep area while permitting excellent levels of flex. Strap features TPR puller for ease of use. Aramidic fiber wires ensure the new strap closure system is durable, thin and lightweight.

Categories: Helmets

Product Description

The result of over 10 years of intensive study, development, and testing, the goal of the Supertech family of helmets is to create the most advanced, protective, and performance-enhancing helmets possible for racers and riders worldwide. Following years of extensive research, development, and testing of the Supertech R10 road racing helmet by Alpinestars' Helmet Product Development Department, together with MotoGP legend Andrea Dovizioso, and MotoGP riders' Jorge Martin, and Jack Miller. With the S-R10, the focus of the design was to ensure the highest level of performance, especially when it comes to protection and a new level of safety. The S-R10 Helmet has been engineered to provide the perfect blend of excellent ventilation, unsurpassed comfort, and the lightest weight possible without compromising on any other front. Another crucial element unique to the S-R10's design and development is the helmet's advanced aerodynamics, with countless sessions in the wind tunnel aimed at reducing drag and providing optimal aerodynamic stability. **Weight: 1,540 grams/3.4 pounds for a size medium** Included: 2 shields (clear and dark), 2 sets of winglets (Road and Race), helmet bag
