Product Description

Arrow Competition Dark Titanium Full System Exhaust

71245PTN
External Silencer Material : Dark Titanium
Internal Silencer Material : Stainless Steel
Silencer End Cap Material : Carbon
Manifold material : Titanium The Competition line, designed by Arrow R&D based on track experience, was created specifically for bikes tuned for participation in circuit competitions and are similar to the exhausts that are supplied to top SBK and SS teams. Competition exhausts are made with the utmost attention to detail and ensure the best possible delivery of the powerful engines prepared for racing: increased diameters in some points, different profiles for section variations, accurate couplings, special exhaust terminals, research into materials. Completely assembled with a manual TIG welding process, the Competition line exhausts are available in the 'full titanium' version or in the titanium terminal and stainless steel collectors version.
In all cases, the collector kits are equipped with the CO probe attachment, to check and correct the control unit settings as conditions and the rider's needs vary. The silencer design, Arrow style, is very refined and, in addition to ensuring maximum performance, allows to contain the noise within the limits imposed by the race regulations. A version with a carbon rear endcap is also available.
Following the limitations on the noise of track activities, and the consequent checks that are carried out on the circuits, versions with a removable dB-killer are also available. The Competition exhaust is the state of the art in terms of style, technology and performance of Arrow products.
Racing product NOT approved for road use.

Product Description

Arrow Competition SBK Evo Titanium Exhaust

71216PTZ Terminal material: titanium Internal Structure Material: stainless steel Back material: carbon Collector material: titanium Fitting material: titanium Designed specifically for lovers of the track and competitions, the SBK full titanium competition complete exhaust kit was created specifically for tuned bikes suitable for participation in circuit competitions thanks to their production in replication to the exhausts that are supplied to the top SBK teams and SS. The competition Arrow racing complete exhaust kit will allow the rider to obtain the maximum performance that a complete system can provide without modifying the classic aesthetics of the Race Tech Arrow muffler. The silencer is equipped with Db Killer completely in titanium like the manifolds and the fitting, for maximum power and a high weight reduction. **NOTE: Inside the package there are the racing collectors, terminal, fitting and all the small parts necessary for assembly.**

Arrow Headers Racing Stainless Steel

71727MI The Arrow racing collectors offer the rider an unprecedented feeling of power. Entirely developed in stainless steel perfectly welded to provide strength and power at the same time. In addition to the increase in power of the bike, you will also get a decrease in weight thanks to the material used during construction. The racing collectors are specially designed for racing use on the track and are not homologated for road circulation. ATTENTION: For correct assembly of the manifolds, we recommend going to an authorized workshop or a qualified and specialized mechanic. **NOTE: Inside the package there are the manifolds, an instruction sheet and all the small parts necessary for the correct assembly of the product.**

Headers material: stainless steel Silencer mounting: welded mount

Product Description

Arrow Indy Race Titanium Exhaust Slip On 71939PK
Material: Titanium
Back: Carbon

Internal material: Stainless steel
The Indy-Race line was created for particular applications, especially under the saddle, where it is more complex to use the other standard Arrow shapes. Its new section, which recalls the oval of some tracks of the Indy formula, hence the name, is more flattened than the others and maintains a good internal volume to be exploited to reduce noise emissions. The internal components are in stainless steel assembled by TIG and MIG welding while the silencer body, very light, is available in titanium, aluminum or carbon fiber.

Product Description

Arrow Maxi Race Tech Aluminum Exhaust
72639AK
Terminal material: Aluminum Back case material: Carbon
Internal silencer material: Stainless steel
Designed for those who want a larger volume exhaust that can be mounted on larger displacement motorcycles, more demanding on the reduction of noise emissions, the Arrow race tech exhaust is part of the new Maxi line. The new muffler, albeit voluminous, has an extremely low weight and gives the bike an aggressive and enveloping sound, also obtaining excellent performance. The silencer is available in the titanium, aluminum and dark aluminum versions. Technical features:

- Body length 400mm
- 50mm coupling diameter
- Outlet diameter 50mm
- Supplied with Db-killer

RACING model - track use Technical Features :
External Silencer Material : Titanium Fittings Material: Titanium
Internal Silencer Material : Stainless Steel
Silencer End Cap Material : Carbon
The titanium body and the original carbon fiber end cap are the characteristic elements of the Works line, designed and developed for all maxi-road motorcycles. The particular conical section, in addition to providing high-level performance, maintains a pleasant but contained exhaust noise. The quality of the materials used, titanium and carbon, and the design technology make it an extremely light, high-performance and easy-to-install exhaust.
