SKU:

Price: ₹87,000.00

Categories: [Rearsets](#)

Product Description

Bonamici Adjustable Rearsets DV4 The rearsets are made entirely from solid material using numerical control machines (CNC) with 3D technology. The use of return springs integrates in the balls and bearings a sphere in place of the bronze bushes, completing the work by manufacturing an excellent product that also offers the most demanding pilots. These platforms can operate with normal and inverted (GP Shifter) gearboxes. Technical features:

- Rearsets made of high strength aluminum alloy
- Double ball bearings on each linkage to completely eliminate friction
- Return spring on the brake lever
- Black anodizing for greater mechanical and chemical resistance
- Possibility of customization with different accessories
- 100% made in Italy
- 6 position adjustment
- Rearsets for both normal and reverse shifting
- Possible to mount carbon heel plates accessories

Bonamici Clutch + Alternator Protector Kit Ducati V4 / V4S

CP081B
