Product Description

HP Corse Evoxtrem 260 Black Exhaust Slip On XTREVO2617B-AB Material: Black frosted stainless steel and carbon Length: 260mm The EVOXTREME line is a very recent novelty by HP CORSE. The name of this line comes from the search for new evolutions, always trying to improve the product up to very high levels. The end result is a unique, sinuous and exciting product with a very efficient outflow of exhaust gas that releases a very performing sound, ideal for the road but especially for the track. The system can be installed directly in the original manifold without problems. Decatalized link pipe and Db-Killer included

Product Description

HP Corse SP-3 Carbon 350 Black Exhaust Slip On TRT850SP3350C-AB Material: Silencer in black satin steel with carbon cap SPS CARBON derives from the 4-TRACK R (with DBK) from which it differs only aesthetically for the use of the carbon fiber end cap that wraps the hydroformed

internal spout. SPS CARBON is dedicated to Maxi Enduro, Sport Touring / Adventure and latest generation crossovers. SPS CARBON loves the thrill of large spaces and roads that are lost beyond the horizon. Conceived in the R&D Center of Bologna, the new HP CORSE creature is born strong, capable of withstanding the most demanding situations and the many kilometers traveled to accompany you through roads, paths, mountain passes and deserts from all over the world. Tested for over a year on the dyno and on the most demanding routes, SPS CARBON guarantees reliability and better performance than all the original exhausts that it replaces, particularly at low and medium revs. SPS CARBON is light, has octagonal shaped bottoms, a hydroformed classic style internal spout wrapped in a beautiful carbon fiber end cap and a silencer body with laser engraved logo. Available in three different materials: titanium, satin steel, black ceramic steel.
