Product Description

The Lanesplit by Mivv full system exhaust is a special collaboration for the first time ever in India! 74.K.036.LXS The exhaust has been custom designed by Mivv solely for Lanesplit. It is sold only in India for the Kawasaki Ninja 300 spec bike and it improves the look, sound and performance of the bike. It is ideal for those who want to stand out on the road. The GP exhaust is a short, round-shaped silencer with removable dB-killer, inspired by racing bikes. It is made of stainless steel with a brushed finish. It was created by Mivv engineers, sales and marketing teams, the Italy distributor and Lanesplit team. We are proud to be the first and only Indian company to team up with one of Italy's most prestigious exhaust manufacturers to offer this unique product to our Indian customers. The advantage of using this full system exhaust Power + 1 hp Torque + 0.30 Nm Weight - 1.70 kg

Mivv Delta Race Black Inox Exhaust

H.084.LDRB Material : BLACK INOX CARBON CAP Made to improve the bike's aesthetics, sound and performance, the Mivv slip-on exhaust comes from the utmost attention to design, with the aim of satisfying those who want to stand out, even through the look of their bike. The DELTA RACE exhaust is characterized by an exclusive shape which, through a gradual transformation, from conical to hexagonal. There are many details that make its style unique, such as the 3K twill carbon end cap; the perimeter band with double riveting; the input bushing machined from solid, to offer maximum coupling precision. The characteristic Mivv logo created by laser is present on the terminal. It is characterized by a central body in black stainless steel with a "Black Moon" effect, obtained thanks to a special ceramic-based painting process which gives the product a more aggressive look.

Product Description

Mivv Speed Edge Inox Black Exhaust Slip On T.018.LRB Made to improve the aesthetics, sound and performance of the motorcycle, the Mivv slip-on exhaust comes from the utmost attention to design, with the aim of satisfying those who want to stand out, even through the look of their bike. The exhausts of the OVAL line are perfectly suited to any type of motorcycle. The Oval muffler, finished with great attention to detail, represents the best compromise between design and performance. All models have a removable dB-killer. Characterized by a body and cup in high thermal resistance carbon, the exhaust has open slits on the cup, a detail that gives the silencer a sportier design.

Product Description

Mivv Sport Delta Race Steel Carbon Full System Exhaust

K.044.LDRX The Italian company Mivv manufactures exhausts for motorcycles since 1970 and what distinguishes it from other companies is their corporate responsibility: a very high level

that lets them design and produce high-technology exhausts for motorcycle, designed and manufactured to meet the expectations of the riders themselves. The design of MIVV exhausts is a key component, which is why it is developed with specialized designers of the motorcycle sector. In addition to design, Mivv uses high-quality sound-absorbing materials, thus allowing a considerable reduction of noise and heat.

Mivv X-M5 Black Inox Full System Exhaust

T.024.SC5B

Made to improve the aesthetics, sound and performance of the motorcycle, the Mivv slip-on exhaust comes from the utmost attention to design, with the aim of satisfying those who want to stand out, even through the look of their bike. The Mivv X-M5 line, the result of the experience acquired in the MotoGP, Moto2 and Moto3 world championships, is the perfect

synthesis between racing style and performance. With a design inspired by the exhausts made for the MotoGP world championship, the X-M5 muffler has a conical shape and compact dimensions capable of releasing the captivating MIVV sound. It features a 3K twill carbon end cap and is equipped with a removable protective grille that hides the dB-killer. The Black version is characterized by a central body in black 304 stainless steel with a "Black Moon" effect, a finish obtained thanks to a special ceramic-based painting process.
