Product Description

The Lanesplit by Mivv full system exhaust is a special collaboration for the first time ever in India! 00.73.K.036.LXS The exhaust has been custom designed by Mivv solely for Lanesplit. It is sold only in India for the Kawasaki Ninja 300 spec bike and it improves the look, sound and performance of the bike. It is ideal for those who want to stand out on the road. The GP exhaust is a short, round-shaped silencer with removable dB-killer, inspired by racing bikes. It is made of stainless steel with a brushed finish. It was created by Mivv engineers, sales and marketing teams, the Italy distributor and Lanesplit team. We are proud to be the first and only Indian company to team up with one of Italy's most prestigious exhaust manufacturers to offer this unique product to our Indian customers. The advantage of using this full system exhaust Power + 1 hp Torque + 0.30 Nm Weight - 1.70 kg

Mivv Delta Race Black Steel Exhaust Slip On Kawasaki Z 900

Product Description

Mivv Delta Race Black Steel Exhaust

K.052.LDRB Material: STEEL CARBON Made to improve the aesthetics, sound and performance of the bike, the slip-on Mivv exhaust system is born from the utmost attention to design, with the aim of satisfying those who want to stand out, even through the look of their bike. The DELTA RACE discharge is characterized by an exclusive shape that, through a gradual transformation, from conical becomes hexagonal. There are many details that make the style unique, like the 3K twill carbon pad; the perimeter band with double riveting; the inlet bushing machined from solid, to offer maximum coupling precision. On the terminal there is the characteristic Mivv logo realized by laser. It is characterized by a brushed stainless steel body with a pearled effect, obtained thanks to a special finishing process that gives the product an inimitable look.

The Italian company Mivv manufactures exhausts for motorcycles since 1970 and what distinguishes it from other companies is their corporate responsibility: a very high level that lets them design and produce high-technology exhausts for motorcycle, designed and manufactured to meet the expectations of the riders themselves. The design of MIVV exhausts is a key component, which is why it is developed with specialized designers of the motorcycle sector. In addition to design, Mivv uses high-quality sound-absorbing materials, thus allowing a considerable reduction of noise and heat.
