### Product Description

#### **PUIG WINDSHIELD R-RACER Dark Smoke 3759F**

The line of screens is the product of Puig's long experience in competition, working with the best teams from MotoGP: Repsol Honda Team and also WSBK: Kawasaki Racing Team, to develop the best screens for your sports motorcycle. The screens are designed for you to have a perfect vision through and to be more aerodynamically efficient than the stock screens, they are tested in a virtual wind tunnel to improve the aerodynamic coefficient (Cx) and thanks to their taller height, it deflects the wind that otherwise would hit the rider's helmet and shoulders. Designed and manufactured in Barcelona, with the most advanced technologies, with high impact acrylic of 3mm, we come up with a very strong piece, light, durable and with a rounded edge of 2mm (accomplishing the safety control from the German TÜV). The artificial vision system utilized during the quality control process guarantees that the screens will get to the client in perfect shape. Installation of the screen doesn't require additional parts like trims and every screen comes with an in depth aerodynamic study that indicates the improvement in performance as well as the protection to the rider.
