Product Description

SC-Project Carbon Fiber Exhaust Slip

D36A-115C SC1-M, derived from the iconic muffler SC1. The new SC1-M was developed by the R&D department for the medium-powered motorbike. Short, compact and modern for those who prefer minimal shapes. The new end cap carbon-fiber Twill with a decisive and strong character adapts well to the shapes of the Ducati Hypermotard 950. The metallic part of the exit section has been designed to integrate better with the sportive design of the carbon end cap. The muffler is equipped with DB-killer and its specific block system. The muffler is EURO 5 homologated. The external part is supplied in Carbon edition. The fixing clamp to the chassis is made in painted Stainless Steel Aisi 304. **Kit contents**

- Slip-On mufflers
- Link pipes
- Springs and screws
- SC-Project stickers
- 24 months SC-Project official warranty
- Homologation card

Product Description

SC-Project Carbon Fiber Exhaust Slip

D30A-110C SC-Project has managed to gather performance, style and globetrotters in MTR muffler. The new MTR muffler (Multiple Road) fits perfectly to your Ducati Multistrada 1260. Thanks to the new endcap made entirely from full Anticorodal aluminum with CNC machines, the style of the muffler becomes unique and distinct. The outside manufacturing of the endcap has been handled by SC-Project R&D department in order to obtain high-quality surfaces and finishes. They gave lots of attention also for the inside manufacturing, made for lightening the more they can the endcap’s weight. The endcap’s color is obtained thanks to the high-temperature resistant anodic oxidation that helps to preserve it. The color used for the muffler is called “Black Pearl”. The muffler is EURO4 homologated. In the kit is included the external body in Carbon and the carbon heat protection. **Kit contents**

- Slip-On muffler
- Carbon heat protection
- Springs and screws
- SC-Project stickers
- 24 months SC-Project official warranty
- Homologation card

Not compatible with 2021 and above model Please note that this exhaust system is custom built on order basis. Please allow 6 - 12 weeks from order to delivery.

Product Description

For the first time ever in India!!

SC Project has created for Lanesplit a custom Carbon Fiber Muffler for the 300 - 1300cc bike segment, only for the India market. This product is not available anywhere else. The slip-on exhaust fits a wide variety of bikes (details in additional information). May need an additional link pipe, depending on bike model. Please contact us for any query. This product is limited to only 1 piece per customer. This is not a dual exhaust. Only 1 muffler included.

* ***Picture is for representation and illustration only.***

The GP-TECH muffler characterized by its round and simple shape gives a sporty and attractive line to your motorbike. The GP-TECH is distinguished by the sporty exhaust end cap carbon fiber Twill. The visible welding with T.I.G. technology and the insert bushings made in CNC allow the silencer to be an added value. The muffler is equipped the DB-Killer and is approved for road use. In the kit are included the steel clamps with anti-vibration rubber for to install the silencers.

Product Description

SC-Project SC1-R Carbon Fiber Exhaust B33B-90C The muffler SC1-R is created and developed by the experience of the SC-Project racing department in the most important World Competitions. A look with taut and decided lines will enrich Your BMW S 1000 RR making

it unique and exclusive. The exit pipe obtained by hydroforming and the carbon fiber end cap from the rhomboidal asymmetric shape make inimitable the silencer SC1-R. The lightweight outer body is available in both Titanium and Carbon version. The weldings with T.I.G., the sound-absorbing material resistant to very high temperatures and the insert bushings made in CNC machining embellish the SC1-R silencer. In the version with Titanium body the R&D department of SC-Project wanted to make the SC1-R more elegant by imprinting the Logo by laser, without distorting the look, while in the Carbon version, on the silencer is riveted an insert with the SC-Project logo as in the versions of our mufflers used in Competitions. The entire system can be further improved with the addition of a carbon fiber protection made in the autoclave included in the kit. Kit contents Slip-On muffler Carbon heat protection Springs and screws SC-Project stickers 24 months SC-Project official warranty Homologation card

Product Description

SC-Project SC1-R Carbon Fiber Exhaust K38A-DET91C The muffler SC1-R is created and developed by the experience of the SC-Project racing department in the most important World Competitions. A look with taut and decided lines will enrich Your Kawasaki Ninja ZX-10R making it unique and exclusive. The exit pipe obtained by hydroforming and the carbon fiber end cap from the rhomboidal asymmetric shape make inimitable the silencer SC1-R. The lightweight outer body is available in Carbon version. The weldings with T.I.G., the sound-absorbing material resistant to very high temperatures and the insert bushings made in CNC machining embellish the SC1-R silencer. In the version Carbon on the silencer is applied an insert with the SC-Project logo as in the versions of our mufflers used in Competitions. In the kit are included the full titanium link pipe and the carbon heat protection. Kit contents Slip-On muffler Link pipe Springs and screws SC-Project stickers 24 months SC-Project official warranty Homologation card

Product Description

SC-Project SC1-R Exhaust K41B-93T The R&D department of SC-Project has tested and developed the SC1-R muffler as a solution to join the aggressive design of big sport-tourer bikes like Kawasaki Ninja 1000SX. Everything about this silencer has been made to offer the highest quality and performance experience: the best materials with advanced production process like the TIG weldings manufactured in protected environment, the sound-absorbing material resistant to very high temperatures, the internal bushings CNC machined from solid block, the exit pipe obtained by hydroforming technology and finally the unique and sporty carbon fiber end cap. The SC1-R silencer is a real piece of art, technology and design 100% Made in Italy. This silencer represents the top quality level of SC-Project products range and it has been projected and manufactured for resisting long distance use. For the Kawasaki Ninja 1000SX, this exhaust comes in Euro 5 compliant version: everything has been developed to offer a superb sound experience in full compliance for street legal use. The SC1-R muffler allows a huge weight reduction (-40% if compared to the OEM exhaust) and to gain a maximum of +1.2 hp and +1.0 Nm of torque at 8500 rpm, with a constant improvement of performance delivery. The installation is plug&play, ECU remapping is not necessary. This silencer is suitable with OEM side cases. Options available: titanium color or ceramic matt-black color. Kit contents Slip-On muffler Link pipe Springs and screws SC-Project stickers 24 months SC-Project official warranty Homologation card

SKU:

Price: ₹115,000.00

Categories: Exhausts

Product Description

SC-Project SC1-R GT Carbon Fiber Exhaust

B30B-105C From the iconic SC1-R, the R&D department of SC-Project has designed and developed the new SC1R-GT muffler. Specifically designed to meet the motorcycle segment *Maxi Enduro* and *Crossover*. A large volume exhaust, which integrates perfectly with the lines of Your Bike. The silencer was designed to last over time. Our engineers have opted to use the best materials with advanced production processes. The T.I.G. welds, the sound-absorbing material resistant to very high temperatures and the insert bushings machined from solid by CNC machining embellish the SC1-R GT silencer. The lightweight outer body in carbon fiber, the exit pipe obtained by hydroforming and the carbon fiber end cap allow a great saving in weight compared to the vast majority of the standard silencers. The SC1-R GT slip-on has an immediately recognizable aggressive and sporty acoustics, while complying with Euro 5 requirements. SC-Project wanted to make the silencer exclusive and inimitable with the logo on a metal plate. The entire system can be further improved with the addition of a carbon fiber protection made in the autoclave included in the kit. Compatible with the BMW original bags. Not compatible with the BMW R 1250 GS ADVENTURE version. **Kit contents**

- Slip-On muffler
- Link pipe
- Springs and screws
- Carbon heat protection
- SC-Project stickers
- 24 months SC-Project official warranty
- Homologation card

Please note that this exhaust system is custom built on order basis. Please allow 6 - 12 weeks from order to delivery.

Product Description

Half-system 2-1-2 titanium system, with double CR-T M2 mufflers carbon fiber

D26A-T68C From the collaboration between the SC-Project department and the Team Barni in the WSBK born the new Half-system 2-1-2 system dedicated to the Ducati Panigale V4. Designed only for maximum performance without any compromise. To create a unique sound we used the CR-T M2 mufflers derived from experience of the World Championships Moto 2. The external body is in high temperature resistant carbon fiber with titanium mesh stone guard. For this realization we have used the best technologies. The complete is built entirely in reduced thickness titanium, with T.I.G. welding performed in a controlled environment. The insert bushings are made of CNC machined titanium, in order to guarantee the best fit. The mounting springs have metal covers (no in rubber) to support the maximum stresses. Inside the kit you will find the autoclave machined carbon protections with a titanium insert. The kit includes all the small parts for plug and play assembly. Possibility to mount the original license plate. For perfect performance, throttle response and durability, ECU remapping is recommended. The best performance with the best design for the Ducati Panigale V4. **Kit contents**

- Slip-On muffler
- Titanium link pipe
- Carbon heat protections
- Springs and screws
- SC-Project stickers

- 24 months SC-Project official warranty

Not compatible with 2021 and above model Please note that this exhaust system is custom built on order basis. Please allow 6 - 12 weeks from order to delivery.
