### Product Description

Caponord Dark Smoked Windscreen Kawasaki Ninja 1000 SX

Color: Dark Smoked Code: KA014FS Windscreen made using high quality PMMA plexiglass, DOT626 approved 3mm thick. Made following the strictest standards in terms of safety and respecting the know-how, which guarantees maximum resistance and transparency. Easy to assemble, the original fairing is removed and the WRS fairing is mounted using the same screws. **Caponord version 8 cm higher than the original fairing.** The aerodynamic lines of this windscreen have been studied in detail to minimize air friction offering the rider maximum coverage from the air while driving. Thanks to the considerable protection of this Caponord version, even the passenger will travel in maximum comfort.

### Product Description

WRS Light Smoke Windscreen

Color: Smoked Code: KA011F This windscreen is 4cm higher than the original. Windscreen made of high quality PMMA plexiglass DOT626 approved, the same material we use for the realization of the screens dedicated to the MotoGP and Superbike world championships. A thickness of only 2 mm was used to maintain excellent lightness and flexibility of the product, making it considerably more resistant to shocks in the event of a fall. This windshield is ideal for those who want to obtain greater coverage from the air while driving without altering the aerodynamics. Made following the strictest safety standards and respecting the know-how, which guarantees maximum resistance and transparency. The design, studied in detail, fits perfectly with the line of the bike, giving it an even more captivating appearance.

### Product Description

Sport Dark Smoked Windscreen Kawasaki Z 900

Color: Dark Smoke Code: KA013FS Windscreen made using high quality PMMA plexiglass,

DOT626 approved 3mm thick. Thanks to this windscreen the annoying turbulence on the helmet will be eliminated, as well as the air on the shoulders and you will finally be protected even for longer journeys. **Sport version, 4cm higher than the original sport and 3cm on the wider side.** Ideal for use in hot weather or for short trips around the city. The design, studied in detail, fits perfectly with the lines of the bike. More specifically, we have improved the lines of the fairing so that the air flow flows directly onto the bike's fairing and onto the rider's helmet, without ever compromising riding comfort.
