AE-56155

[Read More](#)

SKU:

Price: ₹17,000.00

Categories: [Radiator Guards](#)

Product Description

Aella Radiator Guard AE-56155 Japan's most famous accessories and special parts company has teamed up with Lanesplit. AELLA's unique stepless honeycomb design allows the the center part, where the wind from the front wheel is the most, a fine mesh for high protection, while the sides, where the wind from traveling hits, a coarse mesh that does not impair the cooling effect. Made of 0.8mm thick stainless steel. In particular, by using SUS316, which has high acid resistance, corrosion resistance, and high temperature strength, it will protect the core of your precious car for a long time.

Akrapovic Exhaust Full System Suzuki Hayabusa Gen 3

Product Description

Racing Line (Titanium)

S-S13R1-APLT

The Racing Line represents a full step in the exhaust system tuning process and offers a great

balance between price and optimum performance. Racing performance exhaust systems are designed for riders that demand maximum performance from their motorcycle. The system is lighter by 68.2% compared to the stock exhaust system and feature exceptional production quality and pure racing output combined with increased engine performance by an extra 6.5 kW (8.8 HP) and 5.7 Nm, recorded on Akrapovič's in-house dyno against a Hayabusa with a standard stock exhaust. A combination of racing materials like high-grade titanium for the muffler outer sleeve give these exhaust systems a racing touch. Power +6.5 kW at 9900 rpm Torque +5.7 Nm at 8000 rpm Weight -14.0 kg

Product Description

Slip-On Line (Titanium)

S-S13SO4-HRAATBL

Two innovative and aero-efficient mufflers – with a catalytic converter in each to fully comply with BS6 type approval – perfectly match the design of the bike. Constructed from a black-coated lightweight titanium outer sleeve on the mufflers and high-grade stainless steel link pipes, along with carbon-fibre end caps and carbon-fibre heat shields, the exhaust weighs in at 31.6% lighter than stock. This system with a laser-engraved Akrapovič logo has great throttle response to give the rider the feel of the bike's engine and performance, while also adding 1.2 kW (1.6 hp) at 8,700 rpm and 1.9 Nm of torque at 8,400 rpm when tested on the Akrapovič dyno against a Hayabusa with a standard stock exhaust. A vivid, sporty, and deep soundtrack adds another dimension to the exhaust and further thrills the senses. It is a simple plug-and-play product with no need for remapping. Power +1.2 kW at 8700 rpm Torque +1.9 Nm at 8400 rpm Weight -3.9 kg

Bonamici Adjustable Rearsets Suzuki GSX 8R

S014

[Read More](#)

SKU:

Price: ₹57,000.00

Categories: [Rearsets](#)

Product Description

Bonamici Adjustable Rearsets S014 The new Suzuki GSX-8R is an exciting fully-faired sportbike built on the foundation of the GSX-8R. Bonamici Racing is thrilled to introduce the new S014 rearset kit, designed to enhance the riding experience on both models. The adjustable S014 kit supports both standard and reverse shifting, providing riders with unparalleled precision, flexibility and control. **Technical features:** - Rearsets made of high strength aluminum alloy - Double ball bearings on each linkage to completely eliminate friction - Return spring on the brake lever - Black anodizing for greater mechanical and chemical resistance - Possibility of customization with different accessories and colors. - 12 position foot-peg adjustment - Rearsets for both Standard and Reverse shifting - Gear Spacer Support purchasable separately (to

remove side stand) - It is necessary to fit the hydro-stop code HD125 to reuse the rear brake light - Spare Parts always available - Bolts and Nuts supplied with each item for perfect installation - 100% made in Italy **Rearsets kit with adjustable foot-peg and toe peg system** The new S014 rearset kit offers a versatile solution for every rider as both the foot-peg and the gear and brake lever peg are adjustable. S014 allows individual adjustment of various parameters such as foot-peg height, shift travel and pedal length to ensure an optimal driving experience. As with all Bonamici rearsets, these adjustments offer the ability to configure your motorcycle according to your personal preferences or needs. **CNC machined for ultra light weight** Our S014 rearset kit is designed and developed through manufacturing that not only reduces weight but also improves structural integrity. The complex CNC machining process allows the improvement of the agility and maneuverability of the motorcycle without compromising robustness. **Material: Mix of high-strength aluminum alloys** The use of different aluminum alloys in the components of an adjustable rearset kit for sports motorcycles is driven by the need to optimize mechanical performance, workability, corrosion resistance, weight and costs. Selecting the right alloy for each component is critical to ensuring the kit as a whole offers the best possible performance, durability and safety for riders. **Weight** At just 0.575 grams on the gear side and 0.505 grams on the brake side, our rearset kit minimizes unnecessary weight and maximizes performance. More rigidity and 80% reduced torsion. **Replacement (repair) parts** For all our rearset kits it's possible obtain all individual parts. Each component is supplied with bolt/nut for its correct installation. In the assembly instructions there is a spare parts list to easily identify the parts to be replaced, each component has its specific code. **Track use** For use on the circuits of the new S014 rearset kit, it is possible to remove the side stand and install the gear spacer support, code DC_043B, in its place. DC_043B is not included with the code S014 but it is purchasable separately.

Brembo Master Cylinder 19RCS Corsa Corta 110C74010 Suzuki

110C74010

[Read More](#)

SKU:

Price: ₹41,000.00

Categories: [Master Cylinder](#)

Product Description

Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

Dynojet Power Commander Display Pod Suzuki Hayabusa Gen 2

POD 300

[Read More](#)

SKU:

Price: ₹31,900.00

Categories: [Electronics](#)

Product Description

POD 300 The perfect complement to our Power Commander V or AutoTune modules, the POD-300 gives you an accurate real-time reading of your vehicle's vital fuel, engine and air information. Featuring a robust array of options, you can toggle the display, so the data most important to you is front-and-center. The POD-300 can log channels to internal memory, then access them when you're done riding through our Power Core software (only available for Windows computers). This display module connects to your Power Commander V/6 or Wideband 2 device network through a CAN cable (included). The POD-300 is weather-resistant, so it can

be used in any environment. The high-contrast display is easily viewable in direct sunlight. It includes a velcro backing for easy installation and removal, or you can purchase a handlebar mount separately (SKU #61300062). Please note that the POD-300 is a display module only, which is used in conjunction with Power Commander V, Power Commander 6, AutoTune or Wideband 2.

- Clear, high-visibility display module
- Allows for real-time fuel adjustments
- Weather-resistant
- Connects to Power Commander V/6 or AutoTune via CAN cable (included)
- Log channels to internal memory, analyze with Power Core Software

Gilles Adjustable Rearsets Suzuki Hayabusa Gen 3

MUE2-S03-B

[Read More](#)

SKU:

Price: ₹107,000.00

Categories: [Rearsets](#)

Product Description

Gilles Adjustable Rearsets MUE2-S03-B Color: Black Gearbox type: Standard / Reverse
Material: Aluminum The new generation of MUE2 footpegs combines a futuristic design with a very high quality of construction, together with a simplified adjustment system. Wide possibility of adjusting the position of the footrest and brake and gear levers. The position of the footrests is given by the combination of the rotation on the fixing pin (5 positions) and the positioning of the pin on a slide (4 positions) for a total of 20 positions. It is possible to choose between standard or reverse shifting only by varying the fastening of the gear shift. The brake and gear levers are mounted on double ball bearings for maximum freedom of movement. Finally, they are equipped with an ergal heel guard on both the brake and gear side.

Price: ₹3,100.00

Categories: [Hand Guards](#)

Product Description

Hammer Enduro E MX Hand Guard & Handlebar Mounting System

Hammer is the new model on Polisport's handguards line with 1-point-mount, for MX and Enduro. With it comes a new universal mounting system developed for simple and quick installation and a perfect fit on crowded handlebars. The HAMMER offers a large plastic shape to protect hands and master cylinder, and 2 positions of horizontal adjustment to allow some level of customization when installed. The minimalist design, with horizontal oriented vents and carbon texturized plastic cover, will match your bike and give it a stylish look. Hammer handguard is available in Black.

Features

- New universal mounting system for quick, easier mounting and a perfect fit
 - Large plastic guard to ensure the optimal protection for hands and master cylinder
 - Slim and low-profile
 - Horizontally orientated airflow vents for better cooling
 - Quick and easy installation
 - Mounting system bolted on the front of the plastic guard for easy installation and removal
 - Adjustable horizontally in 2 positions
 - All hardware included
 - Mounting kit provides a wider range of installation on the handlebar
-

Product Description

For the first time ever in India!!

SC Project has created for Lanesplit a custom Carbon Fiber Muffler for the 300 - 1300cc bike segment, only for the India market. This product is not available anywhere else. The slip-on exhaust fits a wide variety of bikes (details in additional information). May need an additional link pipe, depending on bike model. Please contact us for any query. This product is limited to only 1 piece per customer. This is not a dual exhaust. Only 1 muffler included.

*** Picture is for representation and illustration only.**

The GP-TECH muffler characterized by its round and simple shape gives a sporty and attractive line to your motorbike. The GP-TECH is distinguished by the sporty exhaust end cap carbon fiber Twill. The visible welding with T.I.G. technology and the insert bushings made in CNC allow the silencer to be an added value. The muffler is equipped the DB-Killer and is approved for road use. In the kit are included the steel clamps with anti-vibration rubber for to install the silencers.

Specially produced for Lanesplit

Sprint Air Filter Suzuki Hayabusa Gen 1-2

PM70S

[Read More](#)

SKU:

Price: ₹10,000.00

Categories: [Air Filters](#)

Product Description

Sprint Filter P08 is a standard performance air filter, ideal for street legal use or track day. Sprint Filter P08 uses a special polyester filtering media with a wire diameter of only 70 microns. Its unique weave pattern can filter debris as small as 80 microns while having the highest permeability for any other air filter brand on the market. The increased airflow of the P08 air filter will help maximize your motorcycle power potential while offering excellent filtration protection. Minimal maintenance Remove the filter from the airbox, blow it clean with compressed air, and reinsert it. No washing, cleaning or oil treatment needed. Product lifecycle The P08's polyester material will display no deterioration or loss of structure or performance if looked after with care.

Product Description

Yoshimura R-77 Carbon Exhaust Slip On 1121120220 Introducing the new R-77 Yoshimura carbon fiber slip-on system for the newly redesigned Suzuki Hayabusa 2022. It would be hard to find anything more classic in life than the Yoshimura R-77 dual carbon fiber exhaust on the Hayabusa. Nobody knows the Suzuki Hayabusa better than the engineers and craftsmen here in Yoshimura. Performance and beauty in one package. Dual R-77 mufflers reduce weight by 5 kg from stock power and torque have increased and the exhaust note of the double Yoshimura R-77 is as classic as the name Hayabusa! This system features left and right 5052 aluminum heat shields that are powder coated and laser engraved with the Yoshimura branding on each side.
