

Aella Frame Slider Triumph Street Triple 765 (2023-24 models)

AE-68160

[Read More](#)

SKU:

Price: ₹26,000.00

Categories: [Frame Slider](#)

Product Description

Aella Frame Slider AE-68160 Japan's most famous accessories and special parts company has teamed up with Lanesplit. Introducing Aella's frame sliders for the Triumph Street Triple 765. These are hand crafted in Japan. In the case of a conventional slider due to the shape of the frame, the left and right mounting heights will differ, but the new design has been made so that they are almost the same height. AELLA's unique taper shape makes it less likely to stick out, and the slider functions well while maintaining a clean impression. The frame slider suppresses damage caused by unexpected falls.

Aella Radiator Guard Triumph Street Triple 765 (2017-22 models)

AE-56008

[Read More](#)

SKU:

Price: ₹17,000.00

Categories: [Radiator Guards](#)

Product Description

Aella Radiator Guard AE-56008 Japan's most famous accessories and special parts company has teamed up with Lanesplit. Introducing Aella's radiator guard for the Triumph Street Triple. These are hand crafted in Japan. The fine eyes of the center part firmly guard from mud and debris

bounced up by the front wheel and the outer large kimono design provides both cooling effect and protection. Aella makes the proprietary stepless pattern that makes your bike stand out.

Bonamici Racing Engine Protection Kit Triumph Street Triple 765

CP074

[Read More](#)

SKU:

Price: ₹46,500.00

Categories: [Protectors](#)

Product Description

Bonamici Racing Engine Protection Kit CP074 The insertion refers to the engine guards right side clutch / distribution + left side. Tough and lightweight protectors that minimize damage

during falls without affecting the weight of the bike. From the collaboration with the teams that race in the world superbike, the engine crankcase protections of Bonamici Racing are born. Made of high-strength aluminum alloy, machined from solid with CNC technology and finished with black anodization, the kit perfectly protects the motorbike casings in case of any falls. Bonamici Racing boasts the widest range of aluminum engine guards dedicated to the major sports bikes on the market.

Brembo Master Cylinder 19RCS Corsa Corta 110C74010 Triumph

110C74010

[Read More](#)

SKU:

Price: ₹41,000.00

Categories: [Master Cylinder](#)

Product Description

Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

Domino Hand Grip A010

A01041C4840B7-0 BLACK/BLUE

[Read More](#)

SKU:

Price: ₹2,400.00

Categories: [Grips](#)

Product Description

Domino Hand Grip A01041C4840B7-0 Domino produces a wide variety of grips for its own controls, designed for handlebars with diameter of 22 and 25.4 mm, for a range of motorcycles. Why use Domino? It is vital to know the precise feel of your throttle control, which allows tiny hand movements to channel the exact power you want from your motorbike. Domino is second to none in the art of motorcycle controls. This is why most European motorcycle manufactures choose Domino as original equipment.

Product Description

Domino Hand Grip A45041C4642B7-0 Domino produces a wide variety of grips for its own controls, designed for handlebars with diameter of 22 and 25.4 mm, for a range of motorcycles. Why use Domino? It is vital to know the precise feel of your throttle control, which allows tiny hand movements to channel the exact power you want from your motorbike. Domino is second to none in the art of motorcycle controls. This is why most European motorcycle manufactures choose Domino as original equipment.

Healtech Pair System Eliminator Triumph Trident 660 (2021-24)

HT-PSE-01

[Read More](#)

SKU:

Price: ₹3,800.00

Categories: [Electronics](#)

Product Description

Healtech Pair System Eliminator HT-PSE-01 The PAIR system on modern sport and street bikes injects fresh air to the exhaust. Doing so, it minimizes the amount of unburnt fuel getting to the atmosphere. This is why the popping occurs on heavy deceleration, as the unburnt fuel is combusting in the end can. Whether you just simply want to get rid of the popping, or opting for a dyno tune, the PAIR system is in your way. However, disconnecting the PAIR valve from the bike's main harness will instantly result in the FI light coming on (which could mask some serious bike/engine related faults). The PS Eliminator will do the trick in a blink of an eye – just plug it in to the PAIR valve's connector and you're all set!

Product Description

HP Corse SP-3 Carbon 350 Black Exhaust Slip On TRT850SP3350C-AB Material: Silencer in black satin steel with carbon cap SPS CARBON derives from the 4-TRACK R (with DBK) from which it differs only aesthetically for the use of the carbon fiber end cap that wraps the hydroformed internal spout. SPS CARBON is dedicated to Maxi Enduro, Sport Touring / Adventure and latest generation crossovers. SPS CARBON loves the thrill of large spaces and roads that are lost beyond the horizon. Conceived in the R&D Center of Bologna, the new HP CORSE creature is born strong, capable of withstanding the most demanding situations and the many kilometers traveled to accompany you through roads, paths, mountain passes and deserts from all over the world. Tested for over a year on the dyno and on the most demanding routes, SPS CARBON guarantees reliability and better performance than all the original exhausts that it replaces, particularly at low and medium revs. SPS CARBON is light, has octagonal shaped bottoms, a hydroformed classic style internal spout wrapped in a beautiful carbon fiber end cap and a silencer body with laser engraved logo. Available in three different materials: titanium, satin steel, black ceramic steel.

Product Description

Mivv Delta Race Black Steel Full System Exhaust

T.022.LDRB Made to improve the aesthetics, sound and performance of the motorcycle, the Mivv slip-on exhaust comes from the utmost attention to design, with the aim of satisfying those who want to stand out, even through the look of their bike. The exhaust is characterized by an exclusive shape which, through a gradual transformation, from conical to hexagonal. There are many details that make the style unique, such as the 3K twill carbon pad; the perimeter band with double riveting; the inlet bushing machined from solid, to offer

maximum coupling precision. On the terminal there is the characteristic Mivv logo made by laser. It is characterized by a central body in black stainless steel with “Black Moon” effect, obtained thanks to a special ceramic-based painting process that gives the product a more aggressive look. Technical Features Cover material: Black stainless steel Back material: Carbon Internal structure material: Stainless steel

Product Description

Hammer Enduro E MX Hand Guard & Handlebar Mounting System

Hammer is the new model on Polisport's handguards line with 1-point-mount, for MX and Enduro. With it comes a new universal mounting system developed for simple and quick installation and a perfect fit on crowded handlebars. The HAMMER offers a large plastic shape to protect hands and master cylinder, and 2 positions of horizontal adjustment to allow some level of customization when installed. The minimalist design, with horizontal oriented vents and carbon texturized plastic cover, will match your bike and give it a stylish look. Hammer handguard is available in Black.

Features

- New universal mounting system for quick, easier mounting and a perfect fit
- Large plastic guard to ensure the optimal protection for hands and master cylinder
- Slim and low-profile

- Horizontally orientated airflow vents for better cooling
 - Quick and easy installation
 - Mounting system bolted on the front of the plastic guard for easy installation and removal
 - Adjustable horizontally in 2 positions
 - All hardware included
 - Mounting kit provides a wider range of installation on the handlebar

Product Description

Sprint Filter P08 is a standard performance air filter, ideal for street legal use or track day. Sprint Filter P08 uses a special polyester filtering media with a wire diameter of only 70 microns. Its unique weave pattern can filter debris as small as 80 microns while having the highest permeability for any other air filter brand on the market. The increased airflow of the P08 air filter will help maximize your motorcycle power potential while offering excellent filtration protection. Minimal maintenance Remove the filter from the airbox, blow it clean with compressed air, and reinsert it. No washing, cleaning or oil treatment needed. Product lifecycle The P08's polyester material will display no deterioration or loss of structure or performance if looked after with care.
