Product Description

CNC Racing Passenger Footpeg Replacement Plates

PET52 Available colors: Black, Red Plates machined from solid by CNC machines with subsequent surface anodization. They allow you to cover the screw holes after removing the stroller footrest brackets, protecting them from water and debris; the design of the plates is also studied to provide an anchorage to the securing straps during transport. On the Panigale and on the Streetfighter E5 they can also be mounted as spacers on the footpegs to allow a more comfortable position for the passenger thanks to their height of 18.00 mm. **NOTE: The kit includes a pair of plates, screws and spacers for correct mounting in both modes.**
