### Product Description

Brembo Series Oro Floating Front Brake Rotor 78B40876 **We remind you that this listing refers to the single rotor. If your bike has two rotor you need to buy two.** Brembo offers with the Gold Series a complete line of rotors that can satisfy any need: perfectly interchangeable with the series rotors, they are the choice of riders who do not want to renounce the Brembo quality. They are composed of the braking strip in stainless steel, connected through 10 pawls to the bell made of aluminum alloy, the latter worked CNC and then anodized. The pawls allow a controlled movement between the band and the bell and allow the materials to dilate when stressed while remaining in the correct operating tolerances.
