GB Racing Clutch Cover Kawasaki ZX 10R

EC-ZX10-2011-2-GBR

[Read More](#)

SKU:

Price: ₹13,000.00

Categories: [Clutch Cover](#)

Product Description

EC-ZX10-2011-2-GBR Material: 60% long glass fibered Nylon GB Racing is a specialist in motorcycle protection, producing frame, engine and fairing protections for the motorcycles of the most prestigious brands. The innovative GB Racing protections are made using a hot forging technique in sturdy 6.6 nylon, making them much more resistant to abrasion, heat developed by the engine and impact. Structurally, the Nylon fiber absorbs the kinetic energy of impact better, while the hot injection of the components during the construction phase allows effective elasticity. In addition to the undoubted improvement of the aesthetics of the bike, the protection of the engine and the frame remain the main purpose of the GB Racing components, protecting all the most delicate parts from accidental collisions or sliding with the asphalt, as well as from bad weather, dust and debris from the road surface. In fact, the GB Racing crankcases are easily installed in a few minutes and perfectly match the shape of the bike.

Polisport Clutch & Alternator Cover Kawasaki Ninja 650 / Z 650 - Black

91107 - Black

[Read More](#)

SKU:

Price: ₹20,000.00

Categories: [Clutch Cover](#), [Protectors](#)

Product Description

Polisport Clutch & Alternator Cover

Polisport Engine Cover Protectors were designed to be the best protections in the market. Through research and development, we found the best materials to protect the engine from crashes and falls. We used a blend of highly resistant plastic with over-injected metallic parts to increase the protection level. We also took design seriously, with a minimalistic but high-tech approach, never forgetting function, which is the crux of our product.

91107 - Black Function Highly resistant protection of the engine cover against stone strikes and damage from falls or impacts when handling the bike Impact-absorbing rubber inserts positioned to cushion the contact between part and engine cover Perfect shape to perfectly fit your bike model. Small gap between standard cover and protection Rubber inserts allow a more even force distribution High-quality hardware Rubber inserts are resistant to high temperatures Technology Highly resistant plastic polymer to protect against falls and impacts Over-injected metal part strategically positioned to enhance protection in the event of a crash High-quality precision manufacture with over-injected impact-absorbing rubber inserts and over-injected stainless-steel insert Other Features Mounting kit included Fast and easy installation and removal Engraved metallic part with Polisport logo Texturized surface for a premium look Minimal design to blend into motorcycle look Developed and made in Europe Packaging Packed in recycled carton box Includes one Clutch and Alternator Cover Protector Includes all material needed for an easy installation

Rizoma Clear Clutch Cover Kit Black Ducati V4 / V4S

ZDM181B

[Read More](#)

SKU:

Price: ₹74,500.00

Categories: [Clutch Cover](#)

Product Description

Rizoma Clear Clutch Cover Kit ZDM181B Color: Black The bordless aluminum cover is equipped with a high-tech clear and anti-fog Lexan window, that enables enthusiasts to showcase and admire the beauty of clutch engineering. The internal components have been developed to ensure both aesthetic and technical excellence. The Clutch Vent System, composed by lightweight aluminum pressure plate and pressure ring, is specifically designed for the maximum optimization of the clutch oil circulation inside the cover. In addition, for minimizing moving masses and increasing mechanical strength, Rizoma selected titanium screws for inner parts fastening. For a better purchasing & mounting experience, the clutch cover is sold as a kit, is composed by all the parts needed for the complete replacement of the OEM components, including a pre-assembled pressure plate ball bearing, and has been designed for a Plug and Play quick installation. Kits are composed by: billet aluminum bordless cover with clear Lexan window, billet aluminum pressure plate with pre-assembled ball bearing, billet aluminum pressure ring, (3x) titanium screws for pressure plate and pressure ring fastening, (6x) Nerinox screws for external cover fastening.
