

Aella Titanium Full System Exhaust Kawasaki Ninja 1000 SX

AE-42026SC

[Read More](#)

SKU:

Price: ₹200,000.00

Categories: [Exhausts](#)

Product Description

Aella Titanium Full System Exhaust AE-42026SC AELLA original muffler produced in collaboration with "Earl's Gear". A new design titanium variant silencer is adopted for the silencer, and it is a carbon end only for AELLA. Titanium alloy is used for the muffler material, achieving a weight reduction of 10 kg without a sub-silencer. A muffler that realizes "increased power and torque" in the entire area. * Note This product cannot be shared with the pannier case. (Pannier case usable model will be released soon)

Akrapovic Carbon Fiber Exhaust Full System Kawasaki ZX 10R

S-K10E10-RC

[Read More](#)

SKU:

Price: ₹400,000.00

Categories: [Exhausts](#)

Product Description

Akrapovic Carbon Fiber Exhaust Full System S-K10E10-RC This is a complete system constructed from high-grade, race-proven lightweight titanium alloys. It provides an impressive increase in power across the entire rev range while also improving torque delivery. The weight is decreased by over 6 kg. The system is finished with a hand-crafted carbon-fiber hexagonal muffler – inspired by Jonathan Rea's (Kawasaki Racing Team) World Superbike-winning machine. The power level has been increased with an extra 8.2 kW (11 HP), recorded on Akrapovič's in-house dyno with back-to-back tests of the Kawasaki with an Evolution Line

(Titanium) exhaust and a Ninja ZX-10RR with a standard stock exhaust system. The exhaust delivers a unique, deep, sporty sound that enhances the system's sporty heritage. An optional aluminum muffler bracket is available to further complement the entire system. The bike's ECU must be remapped when the Evolution Line system is installed.

Price: ₹300,000.00

Categories: [Exhausts](#)

Product Description

Akrapovic Carbon Fiber Exhaust Full System S-K10R10-RC This is a complete stainless-steel exhaust system with a beautifully finished carbon-fibre muffler outer sleeve and high-grade titanium endcap. With the Racing Line, power and torque levels have been increased by an extra 8.2 Kw (11.1 HP) and 13.4 Nm, recorded on Akrapovič's in-house dyno with back-to-back tests of the Kawasaki with a Racing Line (Titanium) exhaust and a Ninja ZX-10RR with a standard stock exhaust system. Coupled with linear delivery right across the entire rev range, it comes with a hexagonal muffler – including titanium inner parts to reduce weight – and a deep sporty sound. An option to add an aluminum muffler bracket is also available to complement the beautiful finish of this system. The bike's ECU must be remapped when the Racing Line system is installed.

Akrapovic Racing Carbon Exhaust Slip On

S-K4SO8-HRC

This beautifully designed exhaust has a more compact shape to fit with the bike's naked and sporty appearance. It is constructed using hand-crafted carbon fibre parts and finished with a titanium end-cap in the same perfectly finished race-proven material. Power and torque increases throughout the range and a weight savings over the standard stock system all add to improved performance. It serves up an enriched tone for added aural enjoyment and is EC/ECE type approved. Easy-to-follow plug-and-play instructions with no remapping makes this a simple upgrade to improve the ZX-4R.

Power + 1.6 Kw , Torque + 2.1 Nm , Weight -5.2 Kg The Racing Line represents a full step in the exhaust system tuning process and offers a great balance between price and optimum performance. Racing performance exhaust systems are designed for riders that demand maximum performance from their motorcycle. The systems are lighter compared to the standard stock exhaust system and feature exceptional production quality and increased engine performance combined with pure racing sound output. A combination of racing materials like carbon fibre for the muffler outer sleeve give these exhaust systems a racing touch.

Product Description

Mivv Delta Race Black Steel Exhaust

K.052.LDRB Material: STEEL CARBON Made to improve the aesthetics, sound and performance of the bike, the slip-on Mivv exhaust system is born from the utmost attention to design, with the aim of satisfying those who want to stand out, even through the look of their bike. The DELTA RACE discharge is characterized by an exclusive shape that, through a gradual transformation, from conical becomes hexagonal. There are many details that make the style unique, like the 3K twill carbon pad; the perimeter band with double riveting; the inlet bushing machined from solid, to offer maximum coupling precision. On the terminal there is the characteristic Mivv logo realized by laser. It is characterized by a brushed stainless steel body with a pearled effect, obtained thanks to a special finishing process that gives the product an inimitable look.

Product Description

For the first time ever in India!!

SC Project has created for Lanesplit a custom Carbon Fiber Muffler for the 300 - 1300cc bike segment, only for the India market. This product is not available anywhere else. The slip-on exhaust fits a wide variety of bikes (details in additional information). May need an additional link pipe, depending on bike model. Please contact us for any query. This product is limited to only 1 piece per customer. This is not a dual exhaust. Only 1 muffler included.

**** Picture is for representation and illustration only.***

The GP-TECH muffler characterized by its round and simple shape gives a sporty and attractive line to your motorbike. The GP-TECH is distinguished by the sporty exhaust end cap carbon fiber Twill. The visible welding with T.I.G. technology and the insert bushings made in CNC allow the silencer to be an added value. The muffler is equipped the DB-Killer and is approved for road use. In the kit are included the steel clamps with anti-vibration rubber for to install the silencers.

Specially produced for Lanesplit

Matte Carbon Fiber Sleeve Matte Carbon Fiber Cap Sleeve Dia 98mm Sleeve Length 280mm
Inlet diameter 52mm Internal Dia 52mm Support Bracket Removable dB-Killer

Product Description

SC-Project SC1-R Carbon Fiber Exhaust K38A-DET91C The muffler SC1-R is created and

developed by the experience of the SC-Project racing department in the most important World Competitions. A look with taut and decided lines will enrich Your Kawasaki Ninja ZX-10R making it unique and exclusive. The exit pipe obtained by hydroforming and the carbon fiber end cap from the rhomboidal asymmetric shape make inimitable the silencer SC1-R. The lightweight outer body is available in Carbon version. The weldings with T.I.G., the sound-absorbing material resistant to very high temperatures and the insert bushings made in CNC machining embellish the SC1-R silencer. In the version Carbon on the silencer is applied an insert with the SC-Project logo as in the versions of our mufflers used in Competitions. In the kit are included the full titanium link pipe and the carbon heat protection. Kit contents Slip-On muffler Link pipe Springs and screws SC-Project stickers 24 months SC-Project official warranty Homologation card

SC-Project SC1-R Exhaust Slip On Kawasaki Ninja 1000 SX

K41B-93T

Product Description

SC-Project SC1-R Exhaust K41B-93T The R&D department of SC-Project has tested and developed the SC1-R muffler as a solution to join the aggressive design of big sport-tourer bikes like Kawasaki Ninja 1000SX. Everything about this silencer has been made to offer the highest quality and performance experience: the best materials with advanced production process like the TIG weldings manufactured in protected environment, the sound-absorbing material resistant to very high temperatures, the internal bushings CNC machined from solid block, the exit pipe obtained by hydroforming technology and finally the unique and sporty carbon fiber end cap. The SC1-R silencer is a real piece of art, technology and design 100% Made in Italy. This silencer represents the top quality level of SC-Project products range and it has been projected and manufactured for resisting long distance use. For the Kawasaki Ninja 1000SX, this exhaust comes in Euro 5 compliant version: everything has been developed to offer a superb sound experience in full compliance for street legal use. The SC1-R muffler allows a huge weight reduction (-40% if compared to the OEM exhaust) and to gain a maximum of +1.2 hp and +1.0 Nm of torque at 8500 rpm, with a constant improvement of performance delivery. The

installation is plug&play, ECU remapping is not necessary. This silencer is suitable with OEM side cases. Options available: titanium color or ceramic matt-black color. Kit contents Slip-On muffler Link pipe Springs and screws SC-Project stickers 24 months SC-Project official warranty Homologation card

SKU:

Price: ₹116,000.00

Categories: [Exhausts](#)

Product Description

Yoshimura AT-2 Stainless Steel Exhaust Slip On 14900BP521 **Available from end June 2023!!**

Introducing the latest in exhaust style and power, our AT2 for supernaked Z900

riding. Yoshimura answered the call with our new AT2 slip-on for this 948cc inline bike. The AT2

slip-on takes the excess weight off the stock 2.26kg muffler. against 4.03kg. for the stock muffler. The new AT2 revives the inline four-cylinder engine well and provides a maximum power increase of 4.5% and maximum torque of 4.2%. Features include a custom stainless steel heat shield, exclusive Works finish, a carbon fiber end cap with an aggressively styled matte finish and a heat guard complemented by a contoured faceted toe. Add in the tone of our AT2 and it puts the Z900 in another category. The AT2 is proudly developed, engineered and manufactured in the USA.
