Product Description

Racing Line (Titanium) S-S13R1-APLT

The Racing Line represents a full step in the exhaust system tuning process and offers a great balance between price and optimum performance. Racing performance exhaust systems are designed for riders that demand maximum performance from their motorcycle. The system is lighter by 68.2% compared to the stock exhaust system and feature exceptional production quality and pure racing output combined with increased engine performance by an extra 6.5 kW (8.8 HP) and 5.7 Nm, recorded on Akrapović's in-house dyno against a Hayabusa with a standard stock exhaust. A combination of racing materials like high-grade titanium for the muffler outer sleeve give these exhaust systems a racing touch. Power +6.5 kW at 9900 rpm Torque +5.7 Nm at 8000 rpm Weight -14.0 kg

Product Description

Slip-On Line (Titanium) S-S13SO4-HRAATBL

Two innovative and aero-efficient mufflers – with a catalytic converter in each to fully comply with BS6 type approval – perfectly match the design of the bike. Constructed from a black-coated lightweight titanium outer sleeve on the mufflers and high-grade stainless steel link pipes, along with carbon-fibre end caps and carbon-fibre heat shields, the exhaust weighs in at 31.6% lighter than stock. This system with a laser-engraved Akrapovič logo has great throttle response to give the rider the feel of the bike’s engine and performance, while also adding 1.2 kW (1.6 hp) at 8,700 rpm and 1.9 Nm of torque at 8,400 rpm when tested on the Akrapovič dyno against a Hayabusa with a standard stock exhaust. A vivid, sporty, and deep soundtrack adds another dimension to the exhaust and further thrills the senses. It is a simple plug-and-play product with no need for remapping. Power +1.2 kW at 8700 rpm Torque +1.9 Nm at 8400 rpm Weight -3.9 kg

The **complete exhaust** represents the maximum expression of **Mivv technology**.

The EVO version, intended for the racing world, is the range of excellence of complete Mivv exhausts, conceived to meet the needs of the teams engaged in the various championships. Developed taking advantage of the experience acquired in the world of racing to the highest levels, like the MotoGP, the Evo version is fully made of grade 1 titanium and the components are all TIG welded. These are the advantages of the Mivv full exhausts: maximum performance; extremely highly reliable materials; weight reduction; ease of assembly.

Power: +8.80 HP

Torque: +3.40 Nm

Product Description

For the first time ever in India!!

SC Project has created for Lanesplit a custom Carbon Fiber Muffler for the 300 - 1300cc bike segment, only for the India market. This product is not available anywhere else. The slip-on exhaust fits a wide variety of bikes (details in additional information). May need an additional link pipe, depending on bike model. Please contact us for any query. This product is limited to only 1 piece per customer. This is not a dual exhaust. Only 1 muffler included.

**** Picture is for representation and illustration only.***

The GP-TECH muffler characterized by its round and simple shape gives a sporty and attractive line to your motorbike. The GP-TECH is distinguished by the sporty exhaust end cap carbon fiber Twill. The visible welding with T.I.G. technology and the insert bushings made in CNC allow the silencer to be an added value. The muffler is equipped the DB-Killer and is approved for road use. In the kit are included the steel clamps with anti-vibration rubber for to install the silencers.

Specially produced for Lanesplit

Product Description

Yoshimura R-77 Carbon Exhaust Slip On 1121120220 Introducing the new R-77 Yoshimura carbon fiber slip-on system for the newly redesigned Suzuki Hayabusa 2022. It would be hard to find anything more classic in life than the Yoshimura R-77 dual carbon fiber exhaust on the Hayabusa. Nobody knows the Suzuki Hayabusa better than the engineers and craftsmen here in Yoshimura. Performance and beauty in one package. Dual R-77 mufflers reduce weight by 5 kg from stock power and torque have increased and the exhaust note of the double Yoshimura R-77 is as classic as the name Hayabusa! This system features left and right 5052 aluminum heat shields that are powder coated and laser engraved with the Yoshimura branding on each side.
