Product Description

Akrapovic Racing Exhaust Slip On

S-T7SO2-APC Material: Carbon Fiber Body and Cap Slip-Ons represent the first step in the exhaust system tuning process, and they offer a great balance between price and performance. Change the nature of your bike by adding more power, improved performance, and the unique Akrapovič sound. Everything packed in stylishly designed Slip-On exhaust systems. The result of taking design very seriously is a beautifully crafted exhaust system with a carbon fiber muffler outer sleeve and end cap. Race-proven materials.

Product Description

HP Corse SP-3 Carbon 350 Black Exhaust Slip On TRT850SP3350C-AB Material: Silencer in black satin steel with carbon cap SPS CARBON derives from the 4-TRACK R (with DBK) from which it differs only aesthetically for the use of the carbon fiber end cap that wraps the hydroformed internal spout. SPS CARBON is dedicated to Maxi Enduro, Sport Touring / Adventure and latest generation crossovers. SPS CARBON loves the thrill of large spaces and roads that are lost beyond the horizon. Conceived in the R&D Center of Bologna, the new HP CORSE creature is born strong, capable of withstanding the most demanding situations and the many kilometers traveled to accompany you through roads, paths, mountain passes and deserts from all over the world. Tested for over a year on the dyno and on the most demanding routes, SPS CARBON guarantees reliability and better performance than all the original exhausts that it replaces, particularly at low and medium revs. SPS CARBON is light, has octagonal shaped bottoms, a hydroformed classic style internal spout wrapped in a beautiful carbon fiber end cap and a silencer body with laser engraved logo. Available in three different materials: titanium, satin steel, black ceramic steel.

Product Description

Mivv Delta Race Black Steel Full System Exhaust

T.022.LDRB Made to improve the aesthetics, sound and performance of the motorcycle, the Mivv slip-on exhaust comes from the utmost attention to design, with the aim of satisfying those who want to stand out, even through the look of their bike. The exhaust is characterized by an exclusive shape which, through a gradual transformation, from conical to hexagonal. There are many details that make the style unique, such as the 3K twill carbon pad; the perimeter band with double riveting; the inlet bushing machined from solid, to offer maximum coupling precision. On the terminal there is the characteristic Mivv logo made by laser. It is characterized by a central body in black stainless steel with “Black Moon” effect, obtained thanks to a special ceramic-based painting process that gives the product a more aggressive look. Technical Features Cover material: Black stainless steel Back material: Carbon Internal structure material: Stainless steel
