AE-68129

[Read More](#)

SKU:

Price: ₹22,500.00

Categories: [Frame Slider](#)

Product Description

Aella Frame Slider AE-68129 Japan's most famous accessories and special parts company has teamed up with Lanesplit. Introducing Aella's frame sliders for the BMW S 1000 RR. These are hand crafted in Japan. In the case of a conventional slider due to the shape of the frame, the left and right mounting heights will differ, but the new design has been made so that they are almost the same height. AELLA's unique taper shape makes it less likely to stick out, and the slider functions well while maintaining a clean impression. The frame slider suppresses damage caused by unexpected falls. Since the frame of the new S1000RR is thin, if the force at the time of falling is transmitted directly to the frame, it may be damaged more than expected. Therefore, the right side adopts a new mechanism that releases the force applied during the fall. Furthermore, "heat-resistant bump rubber" is installed on both sides of the slider to avoid contact with the frame. Install the left side away from the mounting position and distribute the force at the time of the fall at the slider base. In addition, the "heat-resistant bush rubber" used in engine guards, etc., is installed so that this side does not come into direct contact with the frame.

Puig Frame Sliders Kawasaki Ninja 1000SX

21218N

[Read More](#)

SKU:

Price: ₹18,500.00

Categories: [Frame Slider](#)

Product Description

Puig Frame Sliders 21218N Puig Frame Sliders consists of a central body made of polyamide (impact and abrasion resistant) and two pieces (front and rear) made of thermoplastic elastomer to absorb possible impacts with the rider. Its racing design has an aerodynamic character with the use of side wings that in turn have the function of absorbing part of the impact in the event of a fall given their conical configuration. To personalize the slider, the elastic parts (front and back) can be purchased in different colors. Protector compatible with all the references that mounted the Pro protector.
