Product Description

The result of over 10 years of intensive study, development, and testing, the goal of the Supertech family of helmets is to create the most advanced, protective, and performance-enhancing helmets possible for racers and riders worldwide. Following years of extensive research, development, and testing of the Supertech R10 road racing helmet by Alpinestars' Helmet Product Development Department, together with MotoGP legend Andrea Dovizioso, and MotoGP riders' Jorge Martin, and Jack Miller. With the S-R10, the focus of the design was to ensure the highest level of performance, especially when it comes to protection and a new level

of safety. The S-R10 Helmet has been engineered to provide the perfect blend of excellent ventilation, unsurpassed comfort, and the lightest weight possible without compromising on any other front. Another crucial element unique to the S-R10's design and development is the helmet's advanced aerodynamics, with countless sessions in the wind tunnel aimed at reducing drag and providing optimal aerodynamic stability. **Weight: 1,540 grams/3.4 pounds for a size medium** Included: 2 shields (clear and dark), 2 sets of winglets (Road and Race), helmet bag

Product Description

**Want to keep your helmet clean, shiny, sparkling and smelling fresh?
Tired of paying hefty prices for premium brands?**

Look no further. For the first time in India, Lanesplit has brought Kilap, South East Asia's most popular helmet cleaner sets. We have scoured the market to find a suitable helmet care package that is easy to carry, convenient, and can fit the budget. The answer is Kilap. Each set consists of 3 spray bottles, 60 ml size to clean the inner pads, outer shell and the visor. The set comes with a pouch and a free microfiber towel for cleaning the helmet. Try it out today.

Shoei X-15 Marc Marquez Motegi 4 Limited Edition Size M (Japan spec)

Plus applicable GST

[Read More](#)

SKU:

Price: ₹83,000.00

Categories: [Helmets](#)

Product Description

Shoei developed the X-15 with technologies born from racing with one mission in mind, to make the fastest riders on the planet even faster. By designing and refining the X-15 helmet in their state-of-the-art wind tunnel facility, Shoei was able to reduce drag by 6.1% and lift by 1.6% compared to its predecessor the X-14. The X-15 features a Multi-Ply Advanced Integrated Matrix Plus (AIM+) Shell, a six-ply matrix of fiberglass with lightweight organic and high-performance fibers to provide optimal impact-absorption, strength and elasticity. Packed in the X-15's shell is a multitude of features fit for a pro and ready to boost your performance, safety and comfort. **Aerodynamic Shell Design**

- Designed and refined in Shoei's state-of-the-art wind tunnel facility
- 6.1% reduction in drag and a 1.6% reduction in lift compared to the X-14
- Over 150+ profile shape iterations enhance high-speed stability and reduce negative forces
- Rear stabilizer system, concave of the shell surface and pronounced edges on the top left and right sides of the helmet enhance aerodynamic performance

Multi-Ply Advanced Integrated Matrix Plus (AIM+) Shell

- Six-ply matrix of fiberglass with lightweight organic and high-performance fibers provide optimal impact-absorption, strength and elasticity
- Four shell sizes

Multi-Piece Multi-Density EPS Liner

- Optimized impact absorption thanks to varying densities of foam in key areas
- Precise placement of multi-density EPS liner material yields a more compact, lightweight design
- Strategically-located tunnels allow cooling air to travel unrestricted through the helmet
- Small channel in the front chin bar area strategically designed to guide and receive hydration systems (including the optional Shoei Hydration tube – sold separately)

Ventilation System

- Seven (7) closable air intakes and six (6) exhaust outlets
- Air intakes are strategically shaped and located to maximize airflow and negative air pressure suction to the rear of the helmet
- Ventilation tunnels in EPS liner enlarged to 10mm deep from 6mm in the previous model for superior ventilation

- Innovative cheek pad cooling system by increasing the number of holes delivering refreshing air to the rider's cheek area

Field of Vision

- Revised eyeport trajectory from previous model increases the upper field of view by 5mm
- DKS-304 PINLOCK EVO lens system is 10% larger than its predecessor and improves lateral field of vision thanks to relocated pins outside of the eyeport

CWR-F2R Shield & Base Plate System

- Distortion-free view thanks to Shoei's innovative 3D injection-molding process
- Protects against 99% of the sun's damaging UV rays
- CWR-F2R 2D "flat" outside surface combined with 3D technology inside offers an aggressive look with optimized visibility
- Vortex Generators on the sides of the shield improve aerodynamics and reduce wind noise
- Center locking mechanism helps to evenly distribute shield forces across both spring-loaded base plates
- Exclusive two-stage shield locking system - center locking mechanism plus racing shield lock
- Trigger lock mechanism prevents the shield from detaching during an impact or crash

3D Max-Dry Custom Interior System II

- 3D Max-Dry Custom Interior System II is fully removable, washable, adjustable and replaceable
- Max-Dry liner material absorbs and dissipates sweat and moisture twice as fast as traditional nylon interiors
- Independently adjustable 3D center pad components can be replaced with optional thicknesses to customize the fit
- Each pocket-shaped pad has separate, removable layers that can be peeled away to further optimize the individual fit
- Patented angle adjustment mechanism allows you to change the position of the helmet by up to 4-degrees to increase the upper field of vision while tucked in extreme racing positions
- Surface area of the cheek pads has been enlarged by 16.5% from X-14 for a more secure and comfortable fit

Emergency Quick Release System (E.Q.R.S.)

- Emergency Quick Release System that allows emergency medical personnel to easily remove the cheek pads from an injured rider's helmet

Safety Certifications

- Snell M2020R certified
-

SKU:

Price: ₹67,280.00

Categories: [Helmets](#)

Product Description

The SUOMY SR-GP Pecco World Champion 2023 Full Face Helmet is a top-of-the-line helmet designed for motorcycle enthusiasts and professional racers. This helmet is specially crafted to commemorate Pecco Bagnaia's world championship win in 2023. The helmet features a sleek and aerodynamic design, aimed at reducing wind resistance and providing maximum comfort during high-speed rides. Its golden finish gives it a striking and luxurious appearance, making it an instant eye-catcher on the track. Built with safety as the utmost priority, this full-face helmet offers exceptional protection to the rider. It is constructed from a durable and lightweight composite shell that efficiently absorbs impact forces in case of a crash. The interior padding is made from high-quality materials that ensure a snug and comfortable fit while also providing effective shock absorption. The SR-GP Pecco World Champion 2023 Full Face Helmet is equipped with advanced ventilation systems, including multiple air vents strategically placed to provide maximum airflow. This allows for optimal heat dissipation and keeps the rider cool and comfortable even during long rides or in hot weather conditions. The helmet also features an anti-fog, anti-scratch visor with a wide field of vision, ensuring clear visibility at all times. Certified by relevant safety standards, the SUOMY SR-GP Pecco World Champion 2023 Full Face Helmet is designed to meet the demands of professional racers and motorcycle enthusiasts alike. Its sleek design, superior protection, and commemorative appeal make it a highly sought-after choice for those looking to enhance their riding experience.
