Product Description

Aella Carbon Fiber Smoked Windscreen
AS-006-10-04

Presenting a rare and unique windscreen that is only seen on the WSBK and MotoGP bikes. This unique windscreen is hand built in Japan for race teams and is only available through Aella. Adopting dry carbon trim contributes to weight reduction and improved looks, while the screen is made of specially processed acrylic with excellent scratch resistance, and has excellent visibility without distortion. The AELLA logo is engraved on the right side with a laser to casually appeal the brand. This is an unique product that is being offered for the first time in India through Lanesplit, Aella's brand partner.

Product Description

PUIG WINDSHIELD R-RACER Dark Smoke 3759F

The line of screens is the product of Puig's long experience in competition, working with the best teams from MotoGP: Repsol Honda Team and also WSBK: Kawasaki Racing Team, to develop the best screens for your sports motorcycle. The screens are designed for you to have a perfect vision through and to be more aerodynamically efficient than the stock screens, they are tested in a virtual wind tunnel to improve the aerodynamic coefficient (Cx) and thanks to their taller height, it deflects the wind that otherwise would hit the rider's helmet and shoulders. Designed and manufactured in Barcelona, with the most advanced technologies, with high impact acrylic of 3mm, we come up with a very strong piece, light, durable and with a rounded edge of 2mm (accomplishing the safety control from the German TÜV). The artificial vision system utilized during the quality control process guarantees that the screens will get to the client in perfect shape. Installation of the screen doesn't require additional parts like trims and every screen comes with an in depth aerodynamic study that indicates the improvement in performance as well as the protection to the rider.

SKU:

Price: ₹11,400.00

Categories: [Windscreen](#)

Product Description

WRS Clear Windscreen

Color: Transparent Code: KA011T This windscreen is 4cm higher than the original. Windscreen made of high quality PMMA plexiglass DOT626 approved, the same material we use for the realization of the screens dedicated to the MotoGP and Superbike world championships. A thickness of only 2 mm was used to maintain excellent lightness and flexibility of the product, making it considerably more resistant to shocks in the event of a fall. This windshield is ideal for those who want to obtain greater coverage from the air while driving without altering the aerodynamics. Made following the strictest safety standards and respecting the know-how, which guarantees maximum resistance and transparency. The design, studied in detail, fits perfectly with the line of the bike, giving it an even more captivating appearance.

Product Description

WRS Light Smoke Windscreen

Color: Smoked Code: KA011F This windscreen is 4cm higher than the original. Windscreen made

of high quality PMMA plexiglass DOT626 approved, the same material we use for the realization of the screens dedicated to the MotoGP and Superbike world championships. A thickness of only 2 mm was used to maintain excellent lightness and flexibility of the product, making it considerably more resistant to shocks in the event of a fall. This windshield is ideal for those who want to obtain greater coverage from the air while driving without altering the aerodynamics. Made following the strictest safety standards and respecting the know-how, which guarantees maximum resistance and transparency. The design, studied in detail, fits perfectly with the line of the bike, giving it an even more captivating appearance.

Product Description

WRS Windscreen Transparent

DU012T

Color: Transparent Windscreen made of high quality PMMA plexiglass DOT626 approved, the same material we use for the realization of the screens dedicated to the MotoGP and Superbike world championships. Windscreen made using high quality PMMA plexiglass, DOT626 approved 2 mm thick. This windscreen is 3cm higher than the original. Racing windscreen used by numerous teams in the world championships, essential to receive maximum coverage from the air while driving. The design, studied in detail, fits perfectly with the line of the bike, giving it an even more appealing look. Attention: Interchangeable with the original windscreen, it replaces the standard one without modifications. Compatible with all the fairings on which the original windscreen can be installed.
