Product Description

Aella Carbon Fiber Smoked Windscreen
AS-004-00-04

Presenting a rare and unique windscreen that is only seen on the WSBK and MotoGP bikes run by the Ducati Corse team. This unique windscreen is hand built in Japan for race teams and is only available through Aella. Adopting dry carbon trim contributes to weight reduction and improved looks, while the screen is made of specially processed acrylic with excellent scratch resistance, and has excellent visibility without distortion. The AELLA logo is engraved on the right side with a laser to casually appeal the brand. This is an unique product that is being offered for the first time in India through Lanesplit, Aella's brand partner.
