Product Description

Aella Radiator Guard AE-56042 Japan's most famous accessories and special parts company has teamed up with Lanesplit. Introducing Aella's radiator guard for the Kawasaki ZX-4R. These are hand crafted in Japan. Aella's unique stepless wave pattern is a pattern that has both a cooling effect and a protection effect. Fine meshes with a high protective effect are placed in the central part where the front wheels are often wound up, and coarse meshes are placed in the part where the running wind on both sides hits well so as not to impair the cooling effect. Hairline treatment is applied to the surface so that fine scratches are not noticeable.
