Product Description

Akrapovic Racing Complete Exhaust

96482001A

Air filter included. Exclusively produced by Akrapovic.

Please note that this product is only available on special order. Please expect 6 - 8 weeks for delivery. Kindly provide your vehicle VIN number for purchase and mapping

Exclusively produced by Akrapovic with the Ducati experience. The most advanced complete racing groupset available on the market is born from Akrapovič's manufacturing expertise, developed by Ducati Corse technicians and intended for use in races and circuits that require a sound level of less than 105db. However, compliance with the noise limit does not compromise performance, thanks to the careful work done on torque and power, which has made it possible to obtain improvements over the entire range of use and make the bike race ready. Each component of the implant is made of a special titanium alloy which allows a considerable weight saving, as well as being particularly resistant to the high temperatures developed. The exhaust unit significantly improves the Panigale V4's already high power-to-weight ratio. Equipped with a racing-derived polyester air filter, which, in addition to being more permeable, guarantees excellent filtering power and easy maintenance. Top performance, not only thanks to the racing materials, but also to the mapping supplied, with which all the parameters of DTC - DWC - DPL and Slide on demand are adjusted to the new performance of the bike. The double silencer under the saddle makes the design of the bike even more unique and enhances the unmistakable aesthetics of the Panigale V4 with a further touch of aggressiveness. A true race-replica also in the unmistakable sound. **We remind you that buying this exhaust is possible to have the Ducati mapping specific for your motorcycle model. Contact us at the time of purchase for more information.**
