Product Description

Gilles Front Fork Slider GTA-F-BM03-R Color: Red Gilles Tooling fork guards with special plastic body with the best sanding properties (impact and abrasion resistant material). The central part is completely in milled aluminum, for greater safety and strength of the protection. The protections are useful to avoid damage to the forks in the event of a slip on the road or on the track. **NOTE: Inside the package there are the protections, an instruction manual and all the small parts necessary for correct assembly.**
