Product Description

Lightech Carbon Fiber Tank Cover CARB1929 Color - Gloss Lightech designs and manufactures numerous carbon components and accessories for motorcycles and maxi-scooters. Each of these parts is distinguished by precision in the couplings, lightness and obviously very high aesthetic impact. All components are made of carbon and kevlar and the parts most at risk of abrasion such as the engine casings are thicker, to offer greater protection in the event of a fall. Fairing interchangeable with the original without having to make changes to the bike.
