Product Description

Mivv Delta Race Steel Exhaust

K.052.LDRX Material: STEEL CARBON Made to improve the aesthetics, sound and performance of the bike, the slip-on Mivv exhaust system is born from the utmost attention to design, with the aim of satisfying those who want to stand out, even through the look of their bike. The DELTA RACE discharge is characterized by an exclusive shape that, through a gradual transformation, from conical becomes hexagonal. There are many details that make the style unique, like the 3K twill carbon pad; the perimeter band with double riveting; the inlet bushing machined from solid, to offer maximum coupling precision. On the terminal there is the characteristic Mivv logo realized by laser. It is characterized by a brushed stainless steel body with a pearled effect, obtained thanks to a special finishing process that gives the product an inimitable look.
