Product Description

Half-system 2-1-2 titanium system, with double CR-T M2 mufflers carbon fiber

D26A-T68C From the collaboration between the SC-Project department and the Team Barni in the WSBK born the new Half-system 2-1-2 system dedicated to the Ducati Panigale V4. Designed only for maximum performance without any compromise. To create a unique sound we used the CR-T M2 mufflers derived from experience of the World Championships Moto 2. The external body is in high temperature resistant carbon fiber with titanium mesh stone guard. For this realization we have used the best technologies. The complete is built entirely in reduced thickness titanium, with T.I.G. welding performed in a controlled environment. The insert bushings are made of CNC machined titanium, in order to guarantee the best fit. The mounting springs have metal covers (no in rubber) to support the maximum stresses. Inside the kit you will find the autoclave machined carbon protections with a titanium insert. The kit includes all the small parts for plug and play assembly. Possibility to mount the original license plate. For perfect performance, throttle response and durability, ECU remapping is recommended. The best performance with the best design for the Ducati Panigale V4. **Kit contents**

- Slip-On muffler
- Titanium link pipe
- Carbon heat protections
- Springs and screws
- SC-Project stickers
- 24 months SC-Project official warranty

Not compatible with 2021 and above model Please note that this exhaust system is custom built on order basis. Please allow 6 - 12 weeks from order to delivery.
