Product Description

Touring Dark Smoked Windscreen Kawasaki Z 900

Color: Dark Smoked Code: KA012FS Windscreen made using high quality PMMA plexiglass, DOT626 approved 3mm thick. Thanks to this windscreen the annoying turbulence on the helmet will be eliminated, as well as the air on the shoulders and you will finally be protected even for longer journeys. **Touring version with a height of 11.5cm higher than the original and 7.5cm for the widest side.** Ideal for use in cold periods, excellent for long journeys, maximum wind coverage also for tall riders. The design, studied in detail, fits perfectly with the lines of the bike. More specifically, we have improved the lines of the fairing so that the air flow flows directly onto the bike's fairing and onto the rider's helmet, without ever compromising riding comfort.
