Windscreen made using high quality PMMA plexiglass, DOT626 approved 3mm thick. Made following the strictest standards in terms of safety and respecting the know-how, which guarantees maximum resistance and transparency. Sport version, smaller than the original windscreen. The aerodynamic lines of this windscreen have been studied in detail to reduce air friction to a minimum, offering the rider greater driving comfort. For those who want greater coverage from the air we recommend our other version Touring. The small size and sporty lines of this windshield give the bike an even more captivating appearance. Compared to the original windscreen, this Sport version of ours is 6.5cm taller and 5cm narrower.
