Product Description

WRS Windscreen Sport

Color: Dark Smoke

MM002FS

Windscreen made using high quality PMMA plexiglass, DOT626 approved 4mm thick. Thanks to this windscreen the annoying turbulence on the helmet will be eliminated, as well as the air on the shoulders and you will finally be protected even for longer journeys. Ideal for use in hot weather or for short trips around the city. **Sport version with measurement 6cm lower than the original and 6cm per side.** The design, studied in detail, fits perfectly with the lines of the bike. More specifically, we have improved the lines of the windshield so that the airflow flows directly onto the deflectors without compromising driving comfort.
