Brembo Master Cylinder 19RCS Corso Corta 110C74010 Honda

110C74010

[Read More](#)

SKU:

Price: ₹41,000.00

Categories: [Master Cylinder](#)

Product Description

Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

Lightech Aluminum Wheel Valve Cap Black - All Honda Models

SKU:

Price: ₹14,300.00

Categories: [Windscreen](#)

Product Description

PUIG WINDSHIELD Dark Smoked 3818F Renew the image of your bike with the New Generation Sport windscreen from Puig. Manufactured in 3mm methacrylate, a material that guarantees high resistance to possible impacts and provides great aerodynamic capacity. The product has been tested in the wind tunnel, achieving the best results. Puig has taken into account the diversity of this style of motorcycle and has a model for each of the most current motorcycles. The assembly of the piece is an easy task and fits perfectly to the machine. To facilitate the assembly, Puig serves together with the fairing instructions for coupling.

Sprint Air Filter Honda 1100 Africa Twin

PM204S Please note that this package contains 2 filters.

[Read More](#)

SKU:

Price: ₹20,500.00

Categories: [Air Filters](#)

Product Description

Sprint Filter P08 is a standard performance air filter, ideal for street legal use or track day. Sprint Filter P08 uses a special polyester filtering media with a wire diameter of only 70 microns. Its unique weave pattern can filter debris as small as 80 microns while having the highest permeability for any other air filter brand on the market. The increased airflow of the P08 air filter will help maximize your motorcycle power potential while offering excellent

filtration protection. Minimal maintenance Remove the filter from the airbox, blow it clean with compressed air, and reinsert it. No washing, cleaning or oil treatment needed. Product lifecycle The P08's polyester material will display no deterioration or loss of structure or performance if looked after with care.
