**Price:** ₹41,000.00

**Categories:** [Master Cylinder](#)

### Product Description

#### Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

## Brembo Race Caliper M4 White Logo

**Price:** ₹45,000.00

Categories: [Brake Caliper](#)

## Product Description

Brembo Racing Red Radial Brake Caliper M4 Monoblock 100mm White 120988588 This monobloc caliper, obtained from a single piece of molten aluminum alloy, concentrates the most advanced casting and processing technologies to obtain a monolithic caliper body of absolute lightness, with excellent rigidity values and operating precision. Particular attention has been paid to the hydraulics and the shape of the caliper body, both subject to careful technical refinement work. The caliper body, inside which there are 4 pistons with a diameter of 34 millimeters, is characterized by significant rigidity values obtained thanks to the characteristic triple bridge shape. With the cast monoblock calipers, Brembo makes available to all enthusiasts the technology, successfully used in MotoGP, which allows the caliper body to be obtained from a single piece of molten aluminum, thus ensuring optimal rigidity. Model: M4 Side: Left Wheelbase: 100mm Caliper body: Monoblock Number of pistons: 4 Pistons diameter: 34mm H. brake band: 34mm Material: Cast aluminum Superficial protections: Red with white logo Pistons material: Aluminum Weight without pads: 800gr Offset: 30mm The box in addition to the caliper contains: instruction manual, Brembo stickers, banjo and washers for assembling the hose fitting. **NOTE: CALIPER SOLD INDIVIDUALLY (NOT IN KIT)**

## CNC Racing Evo Bar-end Mirror Pair Ducati all models

MR711B + MR712B

[Read More](#)

**SKU:**

**Price:** ₹23,000.00

**Categories:** [Mirrors](#)

### Product Description

CNC Racing Evo Bar-end Mirror Pair MR711B + MR712B Bar-end rear view mirrors made entirely from solid light alloy with subsequent surface anodization. Compatible with most of the handlebars, original and not, through expansion mounting system (handlebar internal diameter Ø 13.5 / 19 mm) or with M6 screw, supplied in the package; it can be mounted in high or low position. The CV001 U-bolt can be combined with the mirror on OEM Brembo pumps.

**UNIVERSAL PRODUCT: before purchasing, check the possibility of correct assembly at a specialized workshop**

## CNC Racing Rocket Bar-end Mirror Pair Ducati all models

MR701B + MR702B

[Read More](#)

**SKU:**

**Price:** ₹22,000.00

**Categories:** [Mirrors](#)

### Product Description

CNC Racing Rocket Bar-end Mirror Pair MR701B + MR702B Bar-end mirror, machined from light alloy billet and then given an anodized surface finish. The useful area extends on an 81mm diameter, to ensure the best possible visibility. The mirror can be fitted in either low or high position and is compatible with most handlebars, both original and non, with an expansion assembly system (handlebar internal diameter Ø 13.5/19 mm) or with a M6 screw, included in the package. It is suggested to purchase our Brembo master cylinder clamp CV001.

**UNIVERSAL PRODUCT: before purchasing, check the possibility of correct assembly at a specialized workshop**
