Product Description

Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

CNC Racing Mirror Pair models

MR701B + MR702B

Product Description

CNC Racing Rocket Bar-end Mirror Pair MR701B + MR702B Bar-end mirror, machined from light alloy billet and then given an anodized surface finish. The useful area extends on an 81mm diameter, to ensure the best possible visibility. The mirror can be fitted in either low or high position and is compatible with most handlebars, both original and non, with an expansion assembly system (handlebar internal diameter Ø 13.5/19 mm) or with a M6 screw, included in the package. It is suggested to purchase our Brembo master cylinder clamp CV001.

UNIVERSAL PRODUCT: before purchasing, check the possibility of correct assembly at a specialized workshop
