Product Description

Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

Price: ₹11,000.00

Categories: [Windscreen](#)

Product Description

WRS Race High Windscreen Color: Light Smoked Code: HO035F Windscreen made of high quality PMMA plexiglass DOT626 approved, the same material we use for the realization of the screens dedicated to the MotoGP and Superbike world championships. A thickness of only 2 mm was used to maintain excellent lightness and flexibility of the product, making it considerably more resistant to shocks in the event of a fall. This windshield is ideal for those who want to obtain greater coverage from the air while driving without altering the aerodynamics. Made following the strictest safety standards and respecting the know-how, which guarantees maximum resistance and transparency. The design, studied in detail, fits perfectly with the line of the motorcycle, giving it an even more captivating appearance.
