Product Description

Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

CNC Racing Mirror Pair models

MR701B + MR702B

[Read More](#)

SKU:

Price: ₹22,0

Categories: [Mirrors](#)

Product Description

CNC Racing Rocket Bar-end Mirror Pair MR701B + MR702B Bar-end mirror, machined from light alloy billet and then given an anodized surface finish. The useful area extends on an 81mm diameter, to ensure the best possible visibility. The mirror can be fitted in either low or high position and is compatible with most handlebars, both original and non, with an expansion assembly system (handlebar internal diameter Ø 13.5/19 mm) or with a M6 screw, included in the package. It is suggested to purchase our Brembo master cylinder clamp CV001.

UNIVERSAL PRODUCT: before purchasing, check the possibility of correct assembly at a specialized workshop

Lightech Aluminum Wheel Valve Cap Black - All Honda Models

VALNER

Rizoma Stealth Rear View Mirror Pair Black Honda CBR 1000RR

BSS031B

[Read More](#)

SKU:

Price: ₹49,000.00

Categories: [Mirrors](#)

Product Description

Rizoma Stealth Rear View Mirror BSS031B Out of the interface between racing experience and aeronautical inspiration comes a new mirror: Stealth, an accessory specifically designed for supersport bikes. It consists of a fixed part, which allows the fitting directly to the fairing, and a movable part, which acts as a mirror glass holder. Thanks to a rotating system, by a simple movement, the two parts get aligned: in closed position the mirror becomes an aerodynamic foil. While the mirror glass holder is always the same, the fixed component is designed ad hoc for each supersport bikes for which Stealth was developed, looking for the best solution to match the relative aerodynamic results. Made of billet aluminum, it has a convex glass surface to provide a wider viewing angle and is available in three different anodized colors. Stealth's design, with its wing-like shape and 25° angle relative to the ground, give it a linear look, ensure it generates downforce, in turn improving the bike's grip and handling performance,

especially at high speed. Downforce pressure is around 4 kg at 300 km/h. The ergonomics has been optimized as well: when the rider takes a sporty riding position, the mirrors are aligned with the rider's eye level. In this way, the rider does not have to raise his position to get a correct rear view, keeping the head protected by the headlight fairing and, therefore, by the pressure that impacts the face at high speed.

Sprint Air Filter Honda CBR 1000RR

PM58S

[Read More](#)

SKU:

Price: ₹12,000.00

Categories: [Air Filters](#)

Product Description

Sprint Filter P08 is a standard performance air filter, ideal for street legal use or track day. Sprint Filter P08 uses a special polyester filtering media with a wire diameter of only 70 microns. Its unique weave pattern can filter debris as small as 80 microns while having the highest permeability for any other air filter brand on the market. The increased airflow of the P08 air filter will help maximize your motorcycle power potential while offering excellent filtration protection. Minimal maintenance Remove the filter from the airbox, blow it clean with compressed air, and reinsert it. No washing, cleaning or oil treatment needed. Product lifecycle The P08's polyester material will display no deterioration or loss of structure or performance if looked after with care.

Anti-Slip Oil Bath Clutch

From the classic line of Slipper clutches for Ducati motorcycles, mechanical machining is performed starting from full with the most modern numerical control machines (CNC) on various materials: ergal, anticorodal, stainless steel, titanium.

WRS Race High Windscreen Light Smoke Honda CBR 1000RR

HO034F

[Read More](#)

SKU:

Price: ₹11,000.00

Categories: [Windscreen](#)

Product Description

WRS Race High Windscreen Color: Light Smoked Code: HO034F Windscreen made of high quality PMMA plexiglass DOT626 approved, the same material we use for the realization of the screens dedicated to the MotoGP and Superbike world championships. A thickness of only 2 mm was used to maintain excellent lightness and flexibility of the product, making it considerably more resistant to shocks in the event of a fall. This windshield is ideal for those who want to obtain greater coverage from the air while driving without altering the aerodynamics. Made following the strictest safety standards and respecting the know-how, which guarantees maximum resistance and transparency. The design, studied in detail, fits perfectly with the line of the motorcycle, giving it an even more captivating appearance.
