Product Description

Aella Carbon Fiber Smoked Windscreen

AS-004-00-04

Presenting a rare and unique windscreen that is only seen on the WSBK and MotoGP bikes run by the Ducati Corse team. This unique windscreen is hand built in Japan for race teams and is only available through Aella. Adopting dry carbon trim contributes to weight reduction and improved looks, while the screen is made of specially processed acrylic with excellent scratch resistance, and has excellent visibility without distortion. The AELLA logo is engraved on the right side with a laser to casually appeal the brand. This is an unique product that is being offered for the first time in India through Lanesplit, Aella's brand partner.

Aella Fender Eliminator

AE-74021

The plate can be mounted at a 45 ° angle, or turned to any other position as desired, in a total of 24 mm range. OEM turn signals can be used for the plate. The turn signal stay / hook plate is made of stainless steel.

Aella Frame Slider Ducati V4 / S (2022 and above models)

AE-68143

[Read More](#)

SKU:

Price: ₹28,800.00

Categories: [Frame Slider](#)

Product Description

Aella Frame Slider AE-68143 Japan's most famous accessories and special parts company has teamed up with Lanesplit. Introducing Aella's frame sliders for the Ducati V4. These are hand crafted in Japan. In the case of a conventional slider due to the shape of the frame, the left and right mounting heights will differ, but the new design has been made so that they are almost the same height. AELLA's unique taper shape makes it less likely to stick out, and the slider functions well while maintaining a clean impression. The frame slider suppresses damage caused by unexpected falls.

Akrapovic Racing Complete Exhaust Ducati V4 / S

96481387C

[Read More](#)

SKU:

Price: ₹685,000.00

Categories: [Exhausts](#)

Product Description

Akrapovic Racing Complete Exhaust

96481387C

Air filter included. Exclusively produced by Akrapovic.

Please note that this product is only available on special order. Please expect 6 - 8 weeks for delivery. Kindly provide your vehicle VIN number for purchase and mapping

The most advanced complete racing exhaust available on the market, developed by Ducati Corse technicians on the basis of the exhaust mounted on the Panigale V4 R used in the Superbike world championship by Bautista and Davies. Each component is made of a special titanium alloy which offers significant weight savings, as well as being particularly resistant to the high temperatures developed. The exhaust unit combined significantly the already high weight-power ratio of the Panigale V4. Equipped with a racing-derived polyester air filter, which, in addition to being more permeable, guarantees excellent filtering power and easy maintenance. Top performance not only thanks to the racing materials, but also to the mapping supplied, with which all the parameters of DTC - DWC - DPL and Slide on demand are provided to the new performance of the bike. The racing exhaust system enhances the unmistakable aesthetics of the Panigale V4 with a touch of aggression. A real race-replica even in the unmistakable sound. Weight: 6.0 Kg Max Power: +6% cv (V4/S) Power at mid-range: +6% cv Max Pair: +6% nm Mid-range torque: +6% nm **We remind you that buying this exhaust is possible to have the Ducati mapping specific for your motorcycle model. Contact us at the time of purchase for more information. NOTE:** To be mounted together with code 97180652AA (V4, V4S), 9N.B. The picture is only indicative FOR MORE INFORMATION PLEASE CONTACT US

Product Description

Akrapovic Racing Complete Exhaust

96482001A

Air filter included. Exclusively produced by Akrapovic.

Please note that this product is only available on special order. Please expect 6 - 8 weeks for delivery. Kindly provide your vehicle VIN number for purchase and mapping

Exclusively produced by Akrapovic with the Ducati experience. The most advanced complete racing groupset available on the market is born from Akrapovič's manufacturing expertise, developed by Ducati Corse technicians and intended for use in races and circuits that require a sound level of less than 105db. However, compliance with the noise limit does not compromise performance, thanks to the careful work done on torque and power, which has made it possible to obtain improvements over the entire range of use and make the bike race ready. Each component of the implant is made of a special titanium alloy which allows a considerable weight saving, as well as being particularly resistant to the high temperatures developed. The exhaust unit significantly improves the Panigale V4's already high power-to-weight ratio. Equipped with a racing-derived polyester air filter, which, in addition to being more permeable, guarantees excellent filtering power and easy maintenance. Top performance, not only thanks to the racing materials, but also to the mapping supplied, with which all the

parameters of DTC - DWC - DPL and Slide on demand are adjusted to the new performance of the bike. The double silencer under the saddle makes the design of the bike even more unique and enhances the unmistakable aesthetics of the Panigale V4 with a further touch of aggressiveness. A true race-replica also in the unmistakable sound. **We remind you that buying this exhaust is possible to have the Ducati mapping specific for your motorcycle model. Contact us at the time of purchase for more information.**

Bonamici Adjustable Rearsets Ducati V4 / V4S

DV4

[Read More](#)

SKU:

Price: ₹87,000.00

Categories: [Rearsets](#)

Product Description

Bonamici Adjustable Rearsets DV4 The rearsets are made entirely from solid material using numerical control machines (CNC) with 3D technology. The use of return springs integrates in the balls and bearings a sphere in place of the bronze bushes, completing the work by manufacturing an excellent product that also offers the most demanding pilots. These platforms can operate with normal and inverted (GP Shifter) gearboxes. Technical features:

- Rearsets made of high strength aluminum alloy
 - Double ball bearings on each linkage to completely eliminate friction
 - Return spring on the brake lever
 - Black anodizing for greater mechanical and chemical resistance
 - Possibility of customization with different accessories
 - 100% made in Italy
 - 6 position adjustment
 - Rearsets for both normal and reverse shifting
 - Possible to mount carbon heel plates accessories
-

Brembo Master Cylinder 19RCS Corsa Corta 110C74010 Ducati

110C74010

[Read More](#)

SKU:

Price: ₹41,000.00

Categories: [Master Cylinder](#)

Product Description

Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

Gilles Adjustable Rearsets Ducati V4 / S

MUE2-D01

[Read More](#)

SKU:

Price: ₹131,500.00

Categories: [Rearsets](#)

Product Description

Gilles Adjustable Rearsets MUE2-D01 Color: Black Gearbox type: Standard / Reverse Material: Aluminum A completely new generation of rear set systems. The MUE2 combines futuristic design with the highest quality workmanship and significantly easier foot plate position adjustment. Black anodized with contrasting color adjusters, which combine sportiness

and aggressiveness in a single product. The positions of the footpegs and levers, brake and gearshift, can be freely adjusted according to your personalization criteria. The footrests are positioned using a combination of sliding and rotating adjustments in a single point, making them extremely simple to modify. The footrests also provide the possibility to leave the standard gearbox or to reverse it to satisfy every type of need. The brake and shift levers can be easily adjusted to suit your driving needs. The heel guards are fully carbon on both sides that define the design of the Gilles Tooling rear sets. Attention: For correct installation of the footrests, we recommend contacting a specialized workshop or an experienced and qualified mechanic. **NOTE: Inside the package there are two footrests, an instruction manual and all the small parts necessary for correct assembly.**

Matris SDR Steering Damper Kit Ducati V4 / V4S

SD.D124R

[Read More](#)

SKU:

Price: ₹51,000.00

Categories: [Steering Damper](#)

Product Description

STEERING DAMPER MATRIS R VERSION

SD.D124R

Steering damper with adjustable hydraulic operation – derived from racing. This item improves the control of the front axle, damping all the oscillations and the rapid setting changes.

- Titanium external cylinder.
- Twin tube system with Al 7075 Aluminum alloy coaxial internal cylinder with oxidation treatment.
- High tensile alloy steel piston rod with hard chrome

coating, lapped finished for an effectively “zero” stiction and PVD TIN (Titanium Nitride) surface treatment. Single rod system supported by oilless slide bearings. • Stainless steel screws.

TECHNICAL FEATURES

- External tank for controlled heat compensation of fluid expansion, pressurized with Nitrogen gas (N2) for greater stability at high operating temperatures.
 - Hydraulic brake adjustment ring nut by calibrated holes with 16 “active” and micrometric points of hardness adjustment (by Racing Replica).
 - The “Speed Sensitive” system reacts to sudden movements by automatically increasing the damping force without restricting movement at slow speeds.
 - Aluminum alloy front rod-end with chromium-plated Steel/PTFE/Bronze wheel.
-

Product Description

PUIG WINDSHIELD R-RACER Dark Smoke 3759F

The line of screens is the product of Puig's long experience in competition, working with the best teams from MotoGP: Repsol Honda Team and also WSBK: Kawasaki Racing Team, to develop the best screens for your sports motorcycle. The screens are designed for you to have a perfect vision through and to be more aerodynamically efficient than the stock screens, they are tested in a virtual wind tunnel to improve the aerodynamic coefficient (Cx) and thanks to their taller height, it deflects the wind that otherwise would hit the rider's helmet and shoulders. Designed and manufactured in Barcelona, with the most advanced technologies, with high impact acrylic of 3mm, we come up with a very strong piece, light, durable and with a rounded edge of 2mm (accomplishing the safety control from the German TÜV). The artificial vision

system utilized during the quality control process guarantees that the screens will get to the client in perfect shape. Installation of the screen doesn't require additional parts like trims and every screen comes with an in depth aerodynamic study that indicates the improvement in performance as well as the protection to the rider.

Rizoma Fuel Tank Cap Ducati V4 / S

TF042B

[Read More](#)

SKU:

Price: ₹23,500.00

Categories: [Fuel Tank Cap](#)

Product Description

Rizoma Fuel Tank Cap TF042B The Rizoma fuel tank cap is made entirely from billet aluminum and combines design, technology, high quality materials and safety. The Key Lock System reduces the risk of tampering while maintaining ease of installation and use. The two-tone finish is obtained through anodization, which keeps it looking good for longer.

Rizoma Stealth Rear View Mirror Pair Black Ducati V4 / S

BSS040B

[Read More](#)

SKU:

Price: ₹49,000.00

Categories: [Mirrors](#)

Product Description

Rizoma Stealth Rear View Mirror BSS040B Out of the interface between racing experience and aeronautical inspiration comes a new mirror: Stealth, an accessory specifically designed for supersport bikes. It consists of a fixed part, which allows the fitting directly to the fairing, and a movable part, which acts as a mirror glass holder. Thanks to a rotating system, by a simple movement, the two parts get aligned: in closed position the mirror becomes an aerodynamic foil. While the mirror glass holder is always the same, the fixed component is designed ad hoc for each supersport bike for which Stealth was developed, looking for the best solution to match the relative aerodynamic results. Made of billet aluminum, it has a convex glass surface to provide a wider viewing angle and is available in three different anodized colors. Stealth's

design, with its wing-like shape and 25° angle relative to the ground, give it a linear look, ensure it generates downforce, in turn improving the bike's grip and handling performance, especially at high speed. Downforce pressure is around 4 kg at 300 km/h. The ergonomics has been optimized as well: when the rider takes a sporty riding position, the mirrors are aligned with the rider's eye level. In this way, the rider does not have to raise his position to get a correct rear view, keeping the head protected by the headlight fairing and, therefore, by the pressure that impacts the face at high speed.

SC-Project Titanium Exhaust Half System Ducati V4 / V4S

D26A-T68C

[Read More](#)

SKU:

Price: ₹416,000.00

Categories: [Exhausts](#)

Product Description

Half-system 2-1-2 titanium system, with double CR-T M2 mufflers carbon fiber

D26A-T68C From the collaboration between the SC-Project department and the Team Barni in the WSBK born the new Half-system 2-1-2 system dedicated to the Ducati Panigale V4. Designed only for maximum performance without any compromise. To create a unique sound we used the CR-T M2 mufflers derived from experience of the World Championships Moto 2. The external body is in high temperature resistant carbon fiber with titanium mesh stone guard. For this realization we have used the best technologies. The complete is built entirely in reduced thickness titanium, with T.I.G. welding performed in a controlled environment. The insert bushings are made of CNC machined titanium, in order to guarantee the best fit. The mounting springs have metal covers (no in rubber) to support the maximum stresses. Inside the kit you will find the autoclave machined carbon protections with a titanium insert. The kit includes all the small parts for plug and play assembly. Possibility to mount the original license plate. For perfect performance, throttle response and durability, ECU remapping is recommended. The best performance with the best design for the Ducati Panigale V4. **Kit**

contents

- Slip-On muffler
- Titanium link pipe
- Carbon heat protections
- Springs and screws
- SC-Project stickers
- 24 months SC-Project official warranty

Not compatible with 2021 and above model Please note that this exhaust system is custom built on order basis. Please allow 6 - 12 weeks from order to delivery.

Sprint Air Filter Ducati V4 / V4S

PM160S

[Read More](#)

SKU:

Price: ₹11,500.00

Categories: [Air Filters](#)

Product Description

Sprint Filter P08 is a standard performance air filter, ideal for street legal use or track day. Sprint Filter P08 uses a special polyester filtering media with a wire diameter of only 70 microns. Its unique weave pattern can filter debris as small as 80 microns while having the highest permeability for any other air filter brand on the market. The increased airflow of the P08 air filter will help maximize your motorcycle power potential while offering excellent filtration protection. Minimal maintenance Remove the filter from the airbox, blow it clean with compressed air, and reinsert it. No washing, cleaning or oil treatment needed. Product lifecycle The P08's polyester material will display no deterioration or loss of structure or performance if looked after with care.
