Product Description

Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body

is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

Product Description

Hammer Enduro E MX Hand Guard & Handlebar Mounting System

Hammer is the new model on Polisport's handguards line with 1-point-mount, for MX and Enduro. With it comes a new universal mounting system developed for simple and quick installation and a perfect fit on crowded handlebars. The HAMMER offers a large plastic shape to protect hands and master cylinder, and 2 positions of horizontal adjustment to allow some level of customization when installed. The minimalist design, with horizontal oriented vents and carbon texturized plastic cover, will match your bike and give it a stylish look. Hammer handguard is available in Black.

Features

- New universal mounting system for quick, easier mounting and a perfect fit
- Large plastic guard to ensure the optimal protection for hands and master cylinder
- Slim and low-profile
- Horizontally orientated airflow vents for better cooling
- Quick and easy installation
- Mounting system bolted on the front of the plastic guard for easy installation and removal
- Adjustable horizontally in 2 positions
- All hardware included
- Mounting kit provides a wider range of installation on the handlebar
