AE-74021

The plate can be mounted at a 45 ° angle, or turned to any other position as desired, in a total of 24 mm range. OEM turn signals can be used for the plate. The turn signal stay / hook plate is made of stainless steel.

Aella Frame Slider Ducati Panigale V2

AE-68131

[Read More](#)

SKU:

Price: ₹26,600.00

Categories: [Frame Slider](#)

Product Description

Aella Frame Slider AE-68131 Japan's most famous accessories and special parts company has teamed up with Lanesplit. Introducing Aella's frame sliders for the Ducati Panigale V2. These are hand crafted in Japan. In the case of a conventional slider due to the shape of the frame, the left and right mounting heights will differ, but the new design has been made so that they are almost the same height. AELLA's unique taper shape makes it less likely to stick out, and the slider functions well while maintaining a clean impression. The frame slider suppresses damage caused by unexpected falls.

Brembo Brake Pad Front Ducati Panigale V2

07BB38SA

[Read More](#)

SKU:

Price: ₹5,150.00

Categories: [Brake Pad](#)

Product Description

07BB38SA Product Detail This is a sintered compound, specific for front application, characterized by excellent efficiency in all conditions of use. It therefore represents an ideal alternative to original brake pads, both when cold and when hot. This compound is characterized by low wear which guarantees long life and suitable mileage. 2 brake pads are sold with this set. They will fit 1 caliper. 2 sets are needed for the front wheel

Brembo Master Cylinder 19RCS Corsa Corta 110C74010 Ducati

110C74010

[Read More](#)

SKU:

Price: ₹41,000.00

Categories: [Master Cylinder](#)

Product Description

Brembo 110C74010

The 19RCS CORSA CORTA is characterized by the possibility it provides the rider to adapt the braking "bite point" to the desired riding feeling, in addition to the RCS (Ratio Click System), introduced 10 years ago on the Brembo 19RCS radial brake master cylinder, which allows the center distance of the master cylinder to be adjusted to "18" or "20". The master cylinder body is made of forge aluminum alloy, machined with 5-axis CAM technology. A hard oxide coating is used for the surface finish, which guarantees that the master cylinder main body is highly resistant to wear and its components move easily. The floating piston and the seals derive directly from those used in MotoGP, as do the housings for the bleeding and fueling systems, which are inclined by more than 30° to make bleeding the master cylinder easier.

CNC Pramac Racing Limited Edition Clear Clutch Cover Black Ducati V2

Puig Windscreen Light Smoke Ducati V2

9690H

[Read More](#)

SKU:

Price: ₹10,000.00

Categories: [Windscreen](#)

Product Description

PUIG WINDSHIELD R-RACER Light Smoke 9690H

The line of screens is the product of Puig's long experience in competition, working with the best teams from MotoGP: Repsol Honda Team and also WSBK: Kawasaki Racing Team, to develop the best screens for your sports motorcycle. The screens are designed for you to have a perfect vision through and to be more aerodynamically efficient than the stock screens, they are tested in a virtual wind tunnel to improve the aerodynamic coefficient (Cx) and thanks to their taller height, it deflects the wind that otherwise would hit the rider's helmet and shoulders. Designed and manufactured in Barcelona, with the most advanced technologies, with high impact acrylic of 3mm, we come up with a very strong piece, light, durable and with a rounded edge of 2mm (accomplishing the safety control from the German TÜV). The artificial vision system utilized during the quality control process guarantees that the screens will get to the client in perfect shape. Installation of the screen doesn't require additional parts like trims and every screen comes with an in depth aerodynamic study that indicates the improvement in performance as well as the protection to the rider.

Rizoma Stealth Rear View Mirror Pair Black Ducati V2

BSS040B

[Read More](#)

SKU:

Price: ₹49,000.00

Categories: [Mirrors](#)

Product Description

Rizoma Stealth Rear View Mirror BSS040B Out of the interface between racing experience and aeronautical inspiration comes a new mirror: Stealth, an accessory specifically designed for supersport bikes. It consists of a fixed part, which allows the fitting directly to the fairing, and a movable part, which acts as a mirror glass holder. Thanks to a rotating system, by a simple movement, the two parts get aligned: in closed position the mirror becomes an aerodynamic foil. While the mirror glass holder is always the same, the fixed component is designed ad hoc for each supersport bikes for which Stealth was developed, looking for the best solution to match the relative aerodynamic results. Made of billet aluminum, it has a convex glass surface to provide a wider viewing angle and is available in three different anodized colors. Stealth's design, with its wing-like shape and 25° angle relative to the ground, give it a linear look, ensure it generates downforce, in turn improving the bike's grip and handling performance, especially at high speed. Downforce pressure is around 4 kg at 300 km/h. The ergonomics has been optimized as well: when the rider takes a sporty riding position, the mirrors are aligned with the rider's eye level. In this way, the rider does not have to raise his position to get a correct rear view, keeping the head protected by the headlight fairing and, therefore, by the pressure that impacts the face at high speed.

Sprint Air Filter Ducati V2

PM127S

[Read More](#)

SKU:

Price: ₹11,000.00

Categories: [Air Filters](#)

Product Description

Sprint Filter P08 is a standard performance air filter, ideal for street legal use or track day. Sprint Filter P08 uses a special polyester filtering media with a wire diameter of only 70 microns. Its unique weave pattern can filter debris as small as 80 microns while having the highest permeability for any other air filter brand on the market. The increased airflow of the P08 air filter will help maximize your motorcycle power potential while offering excellent filtration protection. Minimal maintenance Remove the filter from the airbox, blow it clean with compressed air, and reinsert it. No washing, cleaning or oil treatment needed. Product lifecycle The P08's polyester material will display no deterioration or loss of structure or performance if looked after with care.
